*The Petroleum Museum 1975*

### **The Petroleum Museum is celebrating 35 years of excellence in September 2010.**

Since its opening in 1975 by George T. Abell, the Museum continues to tell the story of petroleum and the rugged lives of men and women who sought a better life.

Every visit to The Petroleum Museum is an opportunity to experience the fun side of science firsthand. Our spectacular exhibit wings offer remarkable insight into the specific and technological world around us, from the age when dinosaurs roamed the Permian Basin to the Wild Oil Boom in West Texas!

The Petroleum Museum has welcomed over one million visitors worldwide. It shares the petroleum and energy story and its impact on our daily lives through educational programs, interactive exhibits, an Archives Center and its Petroleum Hall of Fame.
