THE FINGER LAKES

Native American legend explains the origin of the Finger Lakes by saying that the Creator looked upon this land with special favor and reached down to bless it, leaving the imprint of his hand, what we now call the Finger Lakes. Geology tells a little less romantic story, informing us that at the end of the last ice age, over one hundred-thousand years ago, massive sheets of ice, called glaciers, advanced southward from Canada carving deep trenches in the earth like a trowel. As the earth warmed and the glaciers receded, the trenches filled with water and formed what we now know as the Finger Lakes. There are 11 lakes that make up what are traditionally considered the Finger Lakes, known for their breathtaking natural beauty. The deep waters of the largest lakes, combined with the high hills alongside, create a “micro-climate” ideal for wine production.

SHOP 'TIL YOU DROP!

Cayuga County has several shopping malls with popular chain stores as well as big box stores along the Route 5 and 20 corridor in Auburn. In addition, we have an eclectic array of shops and galleries located throughout the county featuring antiques, locally-made crafts and specialty items. We are also in easy driving distance to the Waterloo Premium Outlets and the mega mall, Destiny, in Syracuse. Cayuga County is a great home base for "shopper-tainment!"
