

A summer exploration of . . . everything.

The **S•T•E•A•M Pod** is an experiential, K-5 program for curious kids who love to explore, create, and learn about their world and everything in it. The program's foundation will be focused on the core elements of the S•T•E•A•M movement: **Science, Technology, Engineering, Art, and Math** – as well as anything else that's cool and interesting.

JOIN US FOR OUR **STEAM-Y** SUMMER PROGRAM!

We've had a such a great year with our STEAM Pod programs that we want to extend it into the summer! Students will participate in a variety of STEAM activities while rotating through stations and executing STEAM BIN challenges. These tasks will vary each day, providing multiple opportunities for students to engage in all of the elements of STEAM as well as participate in independent, partner, small group, and whole group learning. Students will explore science and technology, develop their Eureka Math abilities, and learn critical thinking skills all while having summer fun with their Steam Pod friends! **Come join the Pod!**
