Ford Airport Surpasses All-Time Passenger Record in November

Grand Rapids, Mich. – The Gerald R. Ford International Airport (GFIA) finished the month of November having served an all-time record number of passengers. November 2018 saw an 18-percent growth year-over-year, putting the Ford Airport just shy of 3 million passengers served for 2018.

November marks the eleventh record-breaking month in a row, and the airport has seen growth in 64 of the last 71 months. November 2018 was the busiest November ever, and at this point in the year GFIA has surpassed its annual total reached in every other year including 2017's record setting 2.8 million passengers.

November 2018 had 272,438 passengers come through the Ford Airport, up from 230,946 in 2017. GFIA is up 16-percent in annual passenger totals.

“We have already surpassed last year’s record numbers with one of our busiest months still to go,” said GFIA Interim President & CEO Brian Picardat. “We are thankful for the support we receive from the West Michigan community. We continue to work to add more air service by working with

our airline partners to add destinations that West Michigan travelers want to visit. As we continue to grow, we look forward to more big things in 2019.”

American Airlines began new nonstop service to Miami International Airport (MIA) and Phoenix-Sky Harbor International Airport (PHX) earlier this week. Allegiant announced nonstop service to Sarasota-Bradenton (SRQ) in November which will begin in April 2019.

GFIA monthly passenger statistics are available on our website: <http://www.flyford.org/history.php>.
