Full-Stack Web Development**

on

5 January, 2018

in

Amsterdam

The Netherlands

Wouter de Vos
Founder & CEO

Rembert Boom
Founder & COO

Graduated the immersive 9 week course on complete stacks composed of Ruby, RSpec, Rails, JS/Node (incl. ES6), Mocha, Chai, React, SQL, Redux, HTML5, and CSS3. Project workflow includes code reviews and quality assessments, standard practices such as TDD, basics of product development, UX design, and domain modeling, working together in teams using modern tools like Atom, Git, Github, CI, and Slack.
