SNAP assembly into box

387A with
locknut
removed
threaded onto
'LB' conduit
body

387A, 407A Installation of assembly with LOCKNUT

Patented

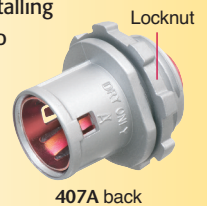

Arlington's new one-piece **SNAP²IT[®]** fittings for 3/4" knockouts make fitting-on-cable installations easier than ever.

NO TOOLS! Save time with easy snap-in installation. Snap the fitting onto the cable and twist clockwise.

To SNAP the assembly into the box, use a 387AST or 407AST fitting.

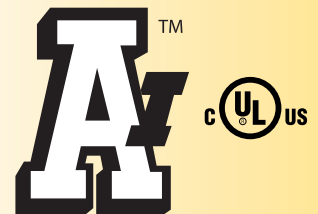

If you prefer a LOCKNUT for installing the assembly into the box, use the 387A or 407A.

The red tinting in the 407A and 407AST indicates our 'OPEN TANG' design, meaning there's more room inside the fitting for easy insertion of wires.

- **Widest total cable ranges**
14/2 to 10/3
- **Widest variety of cables**
For AC, MC, HCF, MC continuous corrugated aluminum cable, MCI-A cables (steel and aluminum), AC90 and ACG90
- **Secure installation** No pullout
- **Easy, screwdriver removal** from box
Connector is reusable
- **Fully assembled – Ready to use**
Insulated throat included
