

BROAN[®]

RANGE HOODS BLOWERS ACCESSORIES

WHEN YOUR HOME BREATHES,

WHY INDOOR AIR QUALITY IS IMPORTANT TO YOU.

Consider this—according to the EPA (epa.gov), indoor air quality is five times worse than outdoor air quality. Most homeowners know that indoor air quality is important, but not all recognize what contributes to poor indoor air quality, the potential effects and harm, and how to address these problems. Broan is here to help. For more than 80 years, Broan has led the industry with residential ventilation solutions that improve indoor air quality and provide healthier home environments.

Moisture that is not properly ventilated can cause mildew and mold formation, which can potentially lead to structural problems and health problems. Exhaust ventilation solutions from Broan remove humidity at the source to help maintain the optimal humidity balance of 40 to 60 percent.

Off-gassing from construction materials, carpeting, adhesives and synthetic materials—as well as solvents from common household cleaners—can accumulate in tightly built homes. Look to Broan for continuous ventilation solutions that meet ASHRAE 62.2.

Particulates from dust, allergens, pet dander, and more can contribute to poor indoor air quality up to 100 times dirtier than outside air. With a properly ventilated home, you create a more enjoyable, comfortable and healthier environment.

Cooking effluents from food preparation can infiltrate the whole house in minutes. Grease, oils and aromas settle permanently into carpets, furniture, clothing and other surfaces. Kitchen ventilation solutions help eliminate cooking effluents for a cleaner, more comfortable and healthier environment.

YOU BREATHE EASIER TOO.

BROAN CAN IMPROVE INDOOR AIR QUALITY IN EVERY ROOM OF THE HOME.

From clearing humidity in the bathroom to removing heat, steam and airborne effluents in the kitchen. From whole-house HEPA air filtration and balanced fresh air exchange solutions to attic ventilation. From the family room to the master bedroom and in every room in between, no company knows residential and light commercial ventilation like Broan-NuTone. After more than 80 years, countless innovations and a commitment to indoor air quality, trust Broan to clear up every concern.

EXHAUST VENTILATION

removes excess moisture and odor from any room in the home, and can also provide continuous, whole-home ventilation.

KITCHEN VENTILATION

expels cooking effluents from food preparation to eliminate airborne pollutants from spreading through the entire house.

WHOLE-HOME BALANCED VENTILATION

efficiently exchanges inside air with fresh outside air, and removes airborne particulate with HEPA filtration.

DID YOU KNOW?*

Knowing the facts goes a long way toward a healthier indoor environment:

Just **46%** recognize not having a bathroom fan has a negative impact on indoor air quality—only 42% recognize that a lack of a range hood also has a negative impact.

60% have a fan in each bathroom but only one in five let it run for 10 minutes after showering.

Some homeowners don't recognize the causes of poor indoor air quality:

Only **42%** are concerned about moisture that causes mold or mildew.

Only **33%** know food aromas after preparation is an indicator of poor IAQ.

81% don't know that a foggy mirror means poor IAQ.

Most homeowners are tuned in to residential Indoor Air Quality concerns:

60% know that indoor air quality has a greater impact on their health than outdoor air quality.

90% realize poor indoor air quality contributes to certain health issues and that healthy air helps prevent illness.

BROAN[®]

Why kitchens need

Fresh salmon fillets are reason enough. But that's really just a start. Because cooking smoke and greasy build-up are more than unpleasant. They're unhealthy. In fact, cooking churns out airborne contaminants like nothing else in the home can. This concentration of contaminants requires effective ventilation. That's where Broan comes in.

As the residential ventilation leader, Broan offers more range hood kitchen ventilating solutions than anyone. From high-performance ducted models, to the most effective non-ducted units ever made. And they're all built to Broan's demanding quality standards. So you can count on Broan range hoods to help keep your kitchen cleaner for years to come. And, built-in lighting keeps your kitchen brighter. Some units even include a convenient nightlight feature.

There really is a difference with Broan. It's in the details.

BROAN *Elite*

Broan® Elite (Rangemaster®), our premier range hoods, offer high performance and unique style to define your kitchen. See pages 8–19, and 26–32.

ventilation.

Problem. Your over-the-range microwave doesn't effectively capture smoke and odors. Your children can't reach it without climbing on the counter, not to mention trying to use it while someone else is cooking.

Solution. Improve the ventilation in your kitchen by replacing your over-the-range microwave with a handsome Broan range hood. Move your microwave to a shelf next to the refrigerator and improve not only the safety of your kitchen, but its efficiency as well.

How do you cook?

What do you expect your range hood to do?

Broan has styles and accessories to

Chimney and High Performance Hoods

Do you have an open concept kitchen?

Consider a chimney style range hood. Distinguish your kitchen with a centerpiece that provides function and high style. Be sure your blower matches the BTU output of your range.

Looking for convenience in a high performance range hood?

Under cabinet range hoods provide homeowners with high style and modern convenience. Sleek designs fit snugly under cabinets and stainless steel bottoms make cleaning easy. Be sure your blower matches the BTU output of your range.

Power Packs

Thinking of designing custom cabinetry?

Power packs allow you to conceal your range hood under a cabinet for a clean look. Insert a power pack and achieve all the benefits of a Broan range hood.

Protect your cabinetry with custom liners. They protect your cabinetry from steam and grease while providing a custom fit all the way around.

Downdrafts

Looking for a range hood that's there when you need it and hidden when you don't?

Downdraft range hoods are perfect for island or peninsula installations. You receive the right amount of ventilation literally at the push of a button.

An optional remote control button puts you in charge from anywhere in the kitchen.

suit every need.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in the attic space.

In-Line

Exterior

Do you have tall ceilings and a chimney hood?

You'll need a flue extension if your ceiling height is greater than 9'. Flue extensions are matched to the shape, style and color of the range hood you select. Extensions for ceiling heights over 10' feet have a 14-week lead time.

Going for a professional or decorator look?

Consider adding stainless steel baffle filters, warming racks or a backsplash. These durable accessories are functional and easy to clean.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in the attic space.

In-Line

Exterior

Replacement and odor absorbing filters.

Recirculate fresh filtered air back into the kitchen. They are made from the highest quality materials to provide the longest life possible.

Select an In-Line or Exterior blower.*

If desired, choose an In-Line or Exterior blower option. Exterior blowers can be roof- or wall-mounted, depending on your appearance preferences, or to best suit your ducting requirements. In-Line blowers perform quietly and mount in a remote location.

In-Line

Exterior

Equalized Air Pressure For A Well-Balanced Home (and budget).

Providing make-up air for exhaust devices is easy, controlling it is not—until now. Broan® Automatic Make-Up Air Dampers are the first to provide synchronized operation for kitchen, bath and whole house ventilation products. Installation is simple and requires no special wiring. The intelligent design options ensure optimum performance in a variety of installations and applications. Highly effective and affordable, Broan Automatic Make-Up Air Dampers strike the perfect balance to keep you and your home breathing easy.

* Broan blowers are designed and UL Listed or recognized for use with Broan products only.

BROAN® *Elite*

The design says professional.
The details say perfection.

Sophisticated tastes deserve sophisticated styling. That's why we created the Broan Elite Series. These range hoods are unique works of art that flawlessly blend style, power and durability. Choosing between them won't be easy. One thing, however, is certain: you're sure to be completely satisfied with the combination of style and power you select. Our commercial-style range hoods feature serious ventilating performance for the serious home chef. They're specifically designed for use with high BTU, commercial-style ranges. They also accommodate the high-capacity demands of residential woks and cooktop grills. And, since true satisfaction and exquisite taste go hand-in-hand, we offer an extensive selection and a wide array of options and colors.

Broan Elite 63000/63000EX (Island)

Rangemaster

Perfection—any way you look at it. This free-hanging island hood will draw the eye from every vantage point.

- Enduring style, stainless steel construction.
- Seamless corners for easy cleaning.
- Concealed three-speed control.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- 27⁵/₈" x 39³/₈" (70 cm x 100 cm) size.
- Superior lighting from four 20-watt Halogen lamps included (one level).
- The 63000EX models are designed to operate with Broan Elite External blowers, providing a choice of four Exterior models: 600, 900, 1200 or 1500 CFM or four In-Line models: 280, 600, 800 or 1100 CFM.
- Telescopic flue fits 8' to 9' ceilings.
- Easily removable, dishwasher-safe stainless steel grease filter.

* 299 CFM max with ARP310 reducer plate option.

† External and In-Line blowers sold separately.

Model 28000
Use with 900 CFM Exterior blower (Model 332H) or In-Line blower.

Model 27000
Includes 500 CFM Internal blower (<300 CFM with ARP310).

Broan 27000/28000 Series Eclipse

Convenient options help assure a custom fit. For the unique demands of cooktops in islands and peninsulas.

- Innovative downdraft system is compatible with virtually all self-contained cooktops.
- Sleek, trim styling complements any cooktop style or color.
- Automatically raises into position with the touch of a button. Disappears flush with cooktop surface.
- Space-saving design lets you make the most of precious, under-counter cabinet space.
- Infinitely adjustable speed control is flush with the side of the unit; inconspicuous, yet easy to reach and simple to use.
- Model 27000 Blower discharges right, left or down and slides side-to-side to ease installation.
- These units are not for installations behind ovens.

** Cooktops, countertops and cabinets vary in dimension and support systems depending upon manufacturer. These factors may impact the Eclipse's ability to fit with every worktop/cabinet combination. Specifications subject to change without notice.

† The model 28000 requires transitioning from 3¼" x 10" to 10" round for connection to the External blower.

* Stainless Steel cover standard. White, Bisque or Black optional.

Broan Elite Custom Power Pack RMP1/RMPE

The Broan Elite Custom Power Pack is designed to fit flush with the bottom of a cabinet or custom hood that's 30" to 48" wide. The 400 CFM centrifugal blower is combined with a multi-speed control to provide quiet, effective performance. Halogen lighting complements the beauty of a fully enclosed bottom containing dishwasher-safe filters.

RML7030S/RML7030L
RML7036S/RML7036L
RML7048S/RML7048L
 For RMP17004 and RMPE7004 Packs

Liners for RMP1/RMPE Power Pack

Broan Elite Liners provide a beautiful way to finish your custom hood and protect your cabinetry. Designed to work with Broan Elite Pro-Insert and Power Packs, liners feature a 3" adjustable nose to provide application flexibility, and a 4" depth for excellent capture.

- Brushed stainless steel finish.
- Liners protect custom hoods and are available for 30", 36" and 48" widths.
- Two versions for maximum flexibility in depth adjustment: "S" version adjusts 17 7/8" – 20 7/8". "L" version adjusts 20 7/8" – 23 7/8".
- Liners are based on the outside width of the custom hood.

Shown with optional baffle filters.

Broan Elite RMIP Pro-Style Insert

The Broan Elite RMIP Pro-Style Insert fits flush with the bottom of the cabinet or custom hoods. Centrifugal blowers from 500 to 1500 CFM with multi-speed control provide quiet and effective performance. Halogen lighting complements the beauty of its fully-enclosed, easy-to-clean bottom.

RML3336S/RML3342S For RMIP33

RML4548S/RML4554S/RML4560S For RMIP45

Liners for the RMIP Pro-Style Insert

Broan Elite Liners provide a beautiful way to finish your custom hood and protect your cabinetry. Designed to work with Broan Elite Pro-Insert and Power Packs, liners feature a 3" adjustable nose to provide application flexibility, and a 4" depth for excellent capture.

- Brushed stainless steel finish.
- Liners protect custom hood and are available for 36", 42", 48", 54" and 60" widths.
- Liners allow depth adjustment from 22 1/2" to 25 1/2". Fits stock 24" cabinets.
- Liners are based on the outside width of the custom hood.
- All models compliant with CA Title 24.

- Multi-speed control.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- 400 CFM internal blower (<300 CFM with ARP6).
- External blower model (RMPE) allows a choice of eight blower options: four Exterior: 600, 900, 1200 or 1500 CFM, or four In-Line: 280, 600, 800 or 1100 CFM.
- Two 50-watt halogen lamps included.
- Dishwasher-safe aluminum filters feature a quick-release latch and professional-style appearance.
- Optional non-ducted filters (FILTEREB40) for indoor exhaust recirculation, some ductwork required (RMP17004 only).
- Install power pack so that the bottom of the unit is 24" to 30" above the cooking surface.
- Optional custom hood liners in 30", 36" and 48" widths.

Range Hood Specifications

WIDTH	STAINLESS STEEL	BLOWER*	VOLTS	AMPS	CFM	SONES	DUCT	Optional Accessories	
								FILTER	MAKE-UP AIR DAMPER
70cm	RMP17004*	Internal	120	3.5	400*	9.0	6" RD	FILTEREB40	MD6TU, MD8TU

 * All blowers are HVI Certified.
 † Some ductwork required for RMP1 non-ducted installations.
 † 299 CFM max with ARP6 reducer plate option.

3-STEP POWER PACK AND BLOWER SELECTION GUIDE

1. Select a Power Pack system

- RMP17004, 400+ CFM Internal blower
- 27¹/₁₆" width, 11³/₄" depth
- RMPE7004, 280–1500 CFM External blower options
- 27¹/₁₆" width, 11³/₄" depth

2. Select a Liner to fit your cabinetry

- If the cabinet/hood inside depth is 18"–21", choose model:
- RML7030S for 30" width
 - RML7036S for 36" width
 - RML7048S for 48" width
- If the cabinet/hood inside depth is 21"–24", choose model:
- RML7030L for 30" width
 - RML7036L for 36" width
 - RML7048L for 48" width

3. Select an Internal or External Blower

- RMP17004, Internal 400 CFM blower is included
- RMPE7004, External blower options (choose one):
- Exterior blowers (outside, roof or wall):

- 331H (600 CFM)*
- 332H (900 CFM)*
- 335 (1200 CFM)*
- 336 (1500 CFM)*

In-Line blowers (inside, attic or other space):

- HLB3 (280 CFM)*v
- HLB6 (600 CFM)*
- HLB9 (800 CFM)*
- HLB11 (1100 CFM)*

* 8"–10" transition (model 414) is required for the Exterior or In-Line models.

- Brushed stainless steel finish.
- Design allows use with custom liners or Broan Elite Pro-Style Insert liners (sold separately).
- Pro-Style Insert available in 33" and 45" widths.
- Variable speed control for quiet operation.
- Optional remote wall control available.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Dishwasher-safe stainless steel/aluminum filters, or optional baffle filters.
- Bright halogen lighting, two 50-watt lamps (RMIP33) or three 50-watt lamps (RMIP45), bulbs not included.
- Choose 460 (<300 CFM with ARP310) or 850 CFM Internal, or choice of eight External blower options: four Exterior: 600, 900, 1200 or 1500 CFM, or four In-Line: 280, 600, 800 or 1100 CFM. All blowers sold separately.
- Optional liners in 36", 42", 48" and 60" widths protect custom hoods.

Range Hood Specifications

WIDTH	MODEL	BLOWER*	CFM*	SONES	FINISH	Optional Accessories	
						BAFFLE FILTER KIT	MAKE-UP AIR DAMPER
33 ³ / ₄ "	RMIP33	Internal	460* (P5), 850 (P8)	10.5	430 Brushed Stainless	RBFIP33	MD6TU, MD8TU
		External	*				
45 ³ / ₄ "	RMIP45	Internal	460* (P5), 850 (P8)	10.5	430 Brushed Stainless	RBFIP45	MD6TU, MD8TU
		External	*				

* All blowers must be purchased separately and are HVI Certified. See blower specifications table on page 51.
 † All ratings for vertical duct only.
 † 299 CFM max with ARP310 reducer plate option.

RMIPWC Optional Wall Control for RMIP

Remote wall control provides both variable speed and light control from a more convenient location. Designed to work with the RMIP Pro-Style Insert only.

3-STEP INSERT & BLOWER SELECTION GUIDE

1. Select the right size Pro-Style Insert

- RMIP33 (33" width) or RMIP45 (45" width)
- Both feature an 18⁷/₁₆" depth
- 460+ or 850 CFM Internal blower options
- 280–1500 CFM External blower options

2. Select a Liner to fit your cabinetry

- For cabinet/hood inside depths of 23"–26" choose:
- RML3336S 36" width, use with RMIP33
 - RML3342S 42" width, use with RMIP33
 - RML4548S 48" width, use with RMIP45
 - RML4554S 54" width, use with RMIP45
 - RML4560S 60" width, use with RMIP45

3. Select a blower for your Insert

- Internal blowers:
- P5 (460 CFM)
 - P8 (850 CFM)
- Exterior blowers (outside, roof or wall):
- 331H (600 CFM)*
 - 332H (900 CFM)*
 - 335 (1200 CFM)*
 - 336 (1500 CFM)*
- In-Line blowers (inside, attic or other space):
- HLB3 (280 CFM)*
 - HLB6 (600 CFM)*
 - HLB9 (800 CFM)*
 - HLB11 (1100 CFM)*

* 332KR Rough-In Kit is required when used with Exterior and In-Line blower options above (purchased separately).

Shown with custom liner

PM500SS Power Pack

The PM500SS delivers the features you expect and the power you need.

Serious cooks will appreciate the full surface coverage of the halogen lighting. Smooth surfaces and quick-release filters clean easily.

Bright Halogen Lighting

3-Speed Push-button Control

Custom Hood Kit

Ultimate ventilating solution for custom range hood designs.

The Custom Hood Kit is the perfect match of high performance ventilation and adjustable construction.

Custom Hood Power Packs and Modules

High-performance ventilation solutions.

These integrated units provide the ventilation and lighting you need for your custom application.

PM390 & PM250 Liners

Broan "T" and "B" liners provide an elegant way to finish a traditional wood hood and protect cabinetry. They feature a durable silver painted finish and a 4" depth for good capture. Hemmed edges hide exposed edges, and pre-drilled mounting holes make installation easy.

LT30 & 36 "T" liners work with wood hoods that are integrated with adjacent 12" deep cabinets.

LB30 & 36 "B" (box) liners fit into 18" deep wood hoods or cabinet bottoms.

Model PM390 shown.

- 500 CFM, 9.0 sones, HVI Certified
- Three-speed, push-button control includes a dedicated on/off
- Dual halogen bulbs with single light level for bright cooktop lighting (Type JC, 12V, 20W, G4 base), included
- 6" round duct
- Easy-to-clean, fully enclosed bottom with dishwasher-safe, aluminum-mesh filters
- Optional non-duct operation using 359NDK non-duct kit and charcoal filter, sold separately
- Works with optional Universal Make-up Air Dampers
- Works with optional LT and LB liners

* 299 CFM max with ARP310 reducer plate option.

MODEL 356NDK

MODEL 357NDK

Depending on your installation of the non-duct system, you may need additional duct or duct components (ie elbows).

Choose from a full line of ENERGY STAR® qualified range hoods from the experts!

Broan® introduced the first ENERGY STAR® qualified range hoods with the QDE Series. Now our line includes models to meet more design options for fashion, custom and pro. All meet Green Building program requirements from USGBC®, LEED®, NAHB and ENERGY STAR® with energy-efficient motors and compact fluorescent lighting. What's more, all are certified by HVI (Home Ventilating Institute) so you know you have a powerful hood. Save energy—and money—with ENERGY STAR® qualified range hoods from Broan. ENERGY STAR® is a registered mark owned by the U.S. government.

Broan Elite RME50000

Rangemaster

Beautiful, yet attainable.

European design with tremendous value to meet the requirements of today's conventional appliance and kitchen styles.

- Three-speed slide control and integrated dual fluorescent light assembly.
- 290 CFM at maximum speed.
- 0.5 Sones at normal (135 CFM).
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.
- Dual 13-watt fluorescent lamps included (one level).
- Dishwasher-safe aluminum filter features a quick-release latch and professional style appearance.
- Ducted telescopic flue accommodates ceiling heights from 8 to 9 feet. Extension flues for higher ceilings are also available.*
- Install hood so that the bottom of the unit is 24 to 30 inches above the cooking surface. Mounting height is determined by ceiling height.

E64000 shown with a custom backsplash.

Broan Elite E64000 Series

Professional style that fits under any cabinet.

E64000 shown with non-duct recirculating kit and a custom backsplash.

Broan Elite Options

Adapt to any installation. Quality Broan Elite options let you create a custom look.

- Restaurant-quality stainless steel backsplash with fold-down shelves completes the commercial look and is easy to clean.
- When venting to the exterior is not possible, an optional non-duct kit will filter air through charcoal filters and recirculate it back into the kitchen.

True professional style and performance has never been easier to bring home.

- Brushed stainless steel finish.
- Bright halogen lighting with two settings; Two 50-watt bulbs in 30" and 36" widths, Three 50-watt bulbs in 42" and 48" widths (purchase bulbs separately).
- Pro-style, dishwasher-safe baffle filters with removable grease drip rail.
- Variable speed control remembers last setting—blue power-on indicator light.
- Heat Sentry™ detects excessive heat and adjusts blower speed automatically.
- Designed to duct out of the hood shell in either horizontal or vertical direction with internal blowers. External blowers duct vertically.
- Designed to work with Broan Automatic Make-Up Air Damper.

- Designed to work with Broan Automatic Make-up air damper.

Internal Blower Specifications

WIDTH	STAINLESS STEEL	CFM	SONES NORMAL SETTING ¹	LAMPS	MAX AMPS ²	DUCTING ²
30"	E6030SS	600	1.5	2-50W GU10	5.0	3-1/4" x 10"
36"	E6036SS	600	1.5	2-50W GU10	5.0	3-1/4" x 10"
42"	E6042TSS	1200	2.0	3-50W GU10	9.0	4-1/2" x 18"
48"	E6048TSS	1200	2.0	3-50W GU10	9.0	4-1/2" x 18"

¹ Sones at high speed for Internal 600–13.5 max; Internal 1200–14.5 max.

² Duct adapter & damper is included with the Internal blowers.

♦ 120V 60Hz

External Blower Specifications

WIDTH	STAINLESS STEEL	CFM ¹ (see page 51)	SONES ²	LAMPS	MAX AMPS ³	DUCTING ³
30"	E60E30SS	280–1500	see below	2-50W GU10	5.5	10" Rd
36"	E60E36SS	280–1500	see below	2-50W GU10	5.5	10" Rd
42"	E60E42SS	280–1500	see below	3-50W GU10	6.0	10" Rd
48"	E60E48SS	280–1500	see below	3-50W GU10	6.0	10" Rd

¹ See page 51 for Exterior (600–1500 CFM) and Inline (280–1100 CFM) blower specifications.

² Sone levels are typically half of comparable CFM internal blowers.

³ External blower capable models include the 332KR rough-in kit (Purchase blowers separately).

♦ 120V 60Hz

Pro-style, dishwasher-safe baffle filters with removable grease drip rail. Filters feature handles for convenient removal.

A non-duct kit may be used to recirculate filtered air back into the kitchen if ducting is not practical.

The professional look is completed with an optional backsplash.

* Includes non-ducted filters.

** Requires two packs for 1200 CFM Blower.

12" SOFFIT FLUE COVER

Make-Up Air Damper Model MD6T, MD8T

Broan Elite Pro Outdoor EPD61 Series

Broan Elite Pro Options

Flue covers are available in corrosion resistant stainless steel and attach to the top of the range hood shell. Flue covers come in 6", 18" and 30" heights. Deeper flue covers are available for hoods using the 3" wall extension.

Flue Cover Specifications

HEIGHTS	FLUE COVER 13" (STANDARD DEPTH)	FLUE COVER 16" (EXTENDED DEPTH)
6" for 8' ceiling	AEEP6SS	AEEP6SSE
18" for 9' ceiling	AEEP18SS	AEEP18SSE
30" for 10' ceiling	AEEP30SS	AEEP30SSE
Adjustable 24"-45" for 9.5' to 11.5' ceiling	AEEP2445SS	AEEP2445SSE

Flue cover available in corrosion resistant stainless steel.

Extra deep design and improved performance for best-in-class capture.

- Professional outdoor design.
- Deep 27" depth to handle heat and size of outdoor gas grills (optional 3" wall extension).
- Brushed corrosion resistant stainless steel.
- Two widths: 36" and 48".
- Powerful 1100 CFM internal blower.
- Bright halogen lighting; two in 36", three in 48" model (bulbs not included).
- 3-speed rotary control designed to resist the effects of heat and moisture.
- Stainless steel baffle filters.
- Heat Sentry™ detects excessive heat and adjusts blower speed automatically.
- HVI certified performance.

Range Hood Specifications

WIDTH	STAINLESS STEEL	BLOWER	VOLTS	AMPS	CFM	SONES	DUCT
36"	EPD6136SS	Internal	120	9.0 Max	1100	11.0	10" RD
48"	EPD6148SS	Internal	120	9.0 Max	1100	11.0	10" RD

1100 CFM Internal Blower tested to assure operation in corrosive environments.

Optional Accessory

3" WALL EXTENSION

AWEPD36SS

AWEPD48SS

Optional 3" wall extension creates 30" depth for even greater coverage; eliminates expensive custom wall bump-outs

Broan Elite E661

Ultra Quiet Performance. The clean, smooth design of this range hood fits snugly under cabinets and provides quiet and effective ventilation.

- Super quiet <0.3 sones at normal speed.
- Enclosed stainless steel bottom with dishwasher-safe aluminum filter with easy release latches.
- Brilliant dual 50-watt halogen lighting (GU10 bulbs included).
- Three-level light settings with last setting memory and transitional theater style lighting. Intensities change gradually.
- Large recessed bottom filter area increases capture.
- Up to 600 CFM internal blower (3¼" x 14" duct, convertible to horizontal or vertical discharge; <300 CFM with ARP314).
- Three-speed plus boost with last setting memory and 5-minute delay off feature.
- Heat Sentry™ detects excessive heat and adjusts blower speed to high automatically.

Range Hood Specifications

* Optional accessory, T461 Adapter 3¼" x 14" to 3¼" x 10" (will reduce CFM a minimum of 100 CFM).

+ Performance levels are for horizontal discharge (vertical boost 550 CFM).

** 299 CFM max with ARP314 reducer plate option.

Advanced soft-touch digital display.

EVOLUTION™ 3

EVOLUTION 3 has brilliant lighting features, plus greater blower control including a Boost mode that serious cooks will adore.

- Super quiet <0.3 sones at normal speed.
- Brushed Stainless Steel, Black or White finishes.
- Easy-to-clean, fully-enclosed non-stick bottom pan.
- Dishwasher-safe, quick latch, aluminum premium-mesh filters.
- Soft-touch, four-speed and lighting control panel, green LEDs with clock/timer, delay-off, ambient light sensor and sleep mode.
- Four-speed blower control includes boost mode. Delivers 450 CFM.
- Optional remote control with blower speed, lighting and delay on/off control capability (battery included).
- Four Halogen MR16/GU10 50W lamps (bulbs included).
- Four-level light settings with theater-style transitions; plus ambient light sensor that automatically turns lighting on at night.
- Broan Advanced Heat Sentry™ detects excessive heat and adjusts blower speed for proper ventilation.
- Compatible with optional make-up air damper accessory.

Ducting: 3¼" x 10" (includes damper/adapter), or 7" round (includes adapter). Non-ducted installation requires optional CleanSense™ charcoal filters, purchased separately.

BCR1

An optional remote control with magnetic base enables operation of blower speed, lighting and delay-off feature from across the room.

Optional Accessories

* Non-ducted recirculating installation requires optional CleanSense™ charcoal filters, BPPF(30/36/42).

EVOLUTION™ 2

EVOLUTION 2 provides the control, power and lighting you need in four attractive finishes.

- Very quiet 0.6 sones at normal speed.
- Brushed Stainless Steel, Black, White or Bisque finishes.
- Easy-to-clean, fully-enclosed non-stick bottom pan.
- Dishwasher-safe, quick latch aluminum micro-mesh filters.
- Soft-touch lighting and three-speed blower control panel, green LEDs.
- Internal blower delivers 350 CFM.
- Four Halogen MR16/GU10 50W lamps (bulbs included).
- Three-level light settings with theater-style transition.
- Broan Advanced Heat Sentry™ detects excessive heat and adjusts blower speed for proper ventilation.

Soft-touch electronic control.

For the 42" EVOLUTION 1 refer to the EVOLUTION 2 line art.
Ducting: 3/4" x 10" (includes damper/adaptor), or 7" round (includes adaptor). Non-ducted installation requires optional CleanSense™ charcoal filters, purchased separately.

QS3 Series (Allure III)

For unparalleled style, quiet, ease of operation and performance.

The ultimate Allure model, combines features like three-speed electronic control plus boost-speed mode, delay-off and filter cleaning reminder. For the first time anywhere, you can have the easy cleaning of DuPont Teflon® in a range hood.

Deluxe glass-look finish, in matching colors. LED indicators for each speed.

QS2 Series (Allure II)

Sets new standard for style, quiet and ease of cleaning.

The Allure II provides the style and performance you demand and with DuPont Teflon®, the easy clean-up you want.

Matte finish in matching color. LED indicators for each speed.

QS1 Series (Allure I)

The new benchmark in style and value.

The quietest range hood in its category, with revolutionary performance and the brilliance of halogen lighting. This isn't anything like your Mom's range hood; it's the one she wished for.

Rocker controls and nameplate in matching matte colors.

- Ultra quiet 0.4 sones at normal speed; extra powerful 430 CFM boost.
- Easy-to-clean DuPont Teflon® bottom pan; fully enclosed design.
- Professional style filters; dishwasher-safe.
- Three-level light settings; dual halogen lamp design (bulbs not included).
- Advanced Heat Sentry™ detects excessive heat and adjusts hood speed for proper ventilation.

Full-size filters are also dishwasher-safe.

Compact fluorescent lighting.

QDE Energy Efficient Range Hood

The first ENERGY STAR® qualified range hood on the market.

Leave it to the ventilation experts to develop the first range hood that provides the ventilating power you need while using less energy. The QDE Series does it all, and quietly too, all while meeting Green Building Programs such as USGBC®, LEED®, NAHB and ENERGY STAR®. And that means you can expect a total lifetime energy savings of 564 kWh over comparable standard range hoods.

- Stainless steel or white finishes.
- Two speed rocker switch.
- 290 CFM at maximum speed.
- 0.8 sones max at normal speed 130 CFM.
- Acoustic insulation surrounds the motor.
- Vertical or horizontal discharge.
- Dual, compact 13-watt fluorescent bulbs (included) last up to five times longer than incandescent lighting.
- Dishwasher safe aluminum filters and blower wheel.

Range Hood Specifications

** All ratings in horizontal duct position.

Optional non-duct recirculating kit available for the AP1 Series.

AP1 Series features variable speed controls with last setting memory.

RP1 Series features two-speed rocker switch controls.

Antimicrobial Coating

Broan combines antimicrobial protection with advanced AP1 mesh filters for unsurpassed benefits:

- Inhibits the growth of odor causing bacteria so filters stay fresher longer.
- Protects the filter so it stays cleaner in between cleanings.

Broan AP1 & RP1 Series

Presenting Broan's newest pro-style hoods.

Never before have appearance and value come together so elegantly.

Features common to both models:

- **Brushed stainless steel, black, and white finish options.**
- **9" Pro-style hood height for excellent capture.**
- **Hidden controls.**
- **30" and 36" widths available.**
- **Internal 440 CFM centrifugal blower (<300 CFM with ARP310).**
- **Two-level dual 50-watt maximum halogen lighting (GU10 bulbs purchased separately).**
- **Heat Sentry™ is a smart feature that detects excessive heat and adjusts speed to high automatically.**

- **ENERGY STAR® version on pg 22-23.**

AP1 features:

- **Dishwasher-safe micromesh filters have a special coating to keep the filters looking new over repeated cleanings, and exclusive antimicrobial protection.**
- **Variable speed blower control.**
- **Non-duct recirculation kit available with charcoal filters.**

RP1 features:

- **Dishwasher-safe micromesh filters.**
- **Two-speed blower control.**

Broan QT20000

Combines modern styling and quiet operation. Research shows that most people use their range hood less frequently because of loud fan noise. That's why the QT hood was developed.

- Patented air chamber design reduces noise up to 40 percent over conventional hoods; 200 CFM, 4.5 sones (vertical discharge), HVI Certified.
- Convertible versatility. Installs as 3 3/4" x 10" (vertical or horizontal), 7" round (vertical) or non-ducted (non-ducted filter sold separately).
- Infinitely adjustable, rotary speed control.
- Larger filter area captures steam and odors.
- Dual 40-watt lamps increase light distribution; nightlight feature adds safety (lamps not included).
- Includes 3 3/4" x 10" damper/adaptor and 7" round adapter.
- 7" round damper optional.
- BP87 damper sold separately.

Broan 43000/F40000

Adapt to any installation. These 4-way convertible range hoods will fit into most all applications. Enclosed light and fan/filter assemblies make for easy cleaning.

43000 Series

- Features enclosed light and fan/filter assembly for easy clean-up.
- Two-speed, rocker-type fan control.
- Powerful 190 CFM, 7.0 sone (3 $\frac{3}{4}$ " x 10" vertical discharge) or 220 CFM, 8.0 sone (7" round discharge) performance.
- Accepts up to 75-watt light (bulb not included).
- Includes 3 $\frac{3}{4}$ " x 10" damper/adaptor and built-in 7" round adapter.

- 7" round damper optional.
- BP87 dampers sold separately.

Retail Replacement Filter Packs

The most popular and commonly used filters are available in consumer-friendly packs. Broan filters are made from the highest quality materials to provide the longest life possible and keep your range hood operating at peak performance. Broan also provides replacement filters for many other brands.

Non-ducted filters should be replaced every 3–6 months or more often if cooking style generates extra grease.

Make-up Air Dampers

Broan® Automatic Make-Up Air Dampers are the first to provide synchronized operation for kitchen, bath and whole-house ventilation products. Installation is simple and requires no special wiring. Intelligent design options ensure optimum performance in a variety of installations and applications. Highly effective and affordable, Broan Automatic Make-Up Air Dampers strike the perfect balance to keep you and your home breathing easy.

- Economical, ruggedly constructed galvanized motorized damper
- Can be controlled by more than one Broan ventilation product
- Damper opens automatically to replace the air being exhausted by ventilation fans or range hoods, and then closes tightly when ventilation fans are turned off
- Prevents excess air from entering the home during heating or cooling operation, reducing energy consumption
- Interlocked systems meet IRC code requirements for make-up air with range hoods
- Fresh air inlets are required—see the table below

MD6TU/MD8TU/MD10TU Universal Design

- Works with any Broan range hood over 300 CFM.
- Provides interlocked make-up air
- No direct wire connection required.
- Requires use of Broan fresh air inlets.

MD6T/MD8T/MD10T

- Works with Broan range hood models: EI59, EW56, EW58, E64, E60, QP4 and QP3.
- Requires direct wire to hood
- Requires use of Broan fresh air inlets.

Fresh air inlets (required)

MD6TU/8TU/10TU installation

MD6T/8T/10T installation

External, Exterior Blowers*

Our Exterior blowers offer you powerful ventilation performance at its very quietest, and something you won't find anywhere else—Broan quality.

- Reduce kitchen noise by locating your range hood blower outdoors.
- For use with our professional style Broan Elite E64000, E60000 and EX Series chimney hoods, downdrafts, RMPE Power Pack and RMIP Inserts.
- Ideal for custom hoods—use the 72W (6 amp variable speed) wall control for remote control of External blowers.
- The 332H is recommended for the Eclipse downdraft.
- Residential design fits unobtrusively on home exterior.
- Durable, weather-resistant, all-aluminum construction that mounts on the roof or outside wall.
- Safety screen keeps small animals and debris away from blower and motor.

Model 331H/332H

All Exterior blowers can be installed on the roof or to an outside wall for the ultimate in quiet, high performance kitchen ventilation.

Quietest sound level is achieved when the blower is mounted at least 10' from the hood location and incorporates a 90° elbow in the duct run.

331H (600 CFM)

335 (1200 CFM)

332H (900 CFM)

336 (1500 CFM)

External, In-Line Blowers* This quiet performance solution is a perfect alternative to Internal or Exterior blowers. Works with all Broan range hoods designed for use with External blowers.

HLB3 (280 CFM)
HLB6 (600 CFM)
HLB9 (800 CFM)
HLB11 (1100 CFM)

- Powerful and quiet, In-Line blowers are available in a range of CFM ratings to match your cooking preferences and ventilation requirements.
- Installs remotely in the interior of the home – not restricted by local exterior home codes or service concerns for roof-mounted exterior applications.
- 8-position mounting brackets, or suspends with special suspension chains (hanger kit included).
- Designed to work independently from Internal or Exterior blowers, this is not a boost blower—the HLB series needs no other blowers in the system.
- Specially designed resilient motor mounts and housing isolation mounts prevent vibration noise.
- Flexible duct design allows straight-through or right-angle connections with built-in damper.
- Includes 10" round ductwork transition(s).

Internal Blower*

Broan Elite Internal blowers provide high ventilation and durable construction to meet the needs of professional-style cooking appliances for the home.

P5 (460 CFM vertical)
P8 (850 CFM vertical)

- The P5 and P8 are designed for use with Broan Elite RMIP Inserts.
- All blowers are designed for quiet operation using the finest motors and balance wheels.
- Rough-In Kits are included to make the installation clean and simple.

*Broan internal and external blowers are designed and UL Listed for use with Broan products only. Use with other manufacturers' products cannot be recommended.

Broan range hoods can be used to comply with California's Title 24.

BROAN[®] Elite Installation and blower selection guidelines

1. Distance from cooking surface:

For optimal performance, the distance from the cooking surface to the bottom of the range hood should be between 24" to 30", unless otherwise noted. DO NOT install a Broan Elite range hood less than 24" above cooking surface.

To maintain hood performance at heights greater than the recommended range, use the following guidelines:

- For every 3" increase in installation height, add 100 CFM to the minimum exhaust requirement and/or a minimum of 3" to the hood/liner width (may require going to the next hood width).

2. Range hood width:

The hood should never be less than the width of the cooktop.

3. Required blower CFM based on cooktop BTU output.

- For gas cooktops UNDER 60,000 BTUs or electric, choose a blower with a minimum of 100 CFM per lineal foot of your cooktop width. For example, a 36" wide cooktop requires a blower with a minimum of 300 CFM.
- High heat cooking or aromatic foods may require additional CFM. Always check with the range manufacturer. NOTE: Increasing capture area by 3" on each side is also a recommended way to address this issue.

- As a means to estimate the approximate CFM requirement for gas cooktops OVER 60,000 BTUs, choose a blower with 1 CFM per 100 BTU of cooktop output. To quickly calculate this number, add the BTU output from all burners and drop the last two zeros. For example, if the total BTU output of the cooktop burners is 65,000 BTUs, choose a blower with at least 650 CFM.

4. Additional CFM needs for a Grill or Griddle:

If your cooktop has a grill or griddle, ADD 200 CFM to your estimated CFM needs as calculated in step 3. For example, if your cooktop BTU output requires a 650 CFM blower, add 200 CFM for a total of 850 CFM.

Installation Example:

A consumer purchases a cooktop with these specifications:

- Four burner, 36" cooktop
- Burner output is 60,000 BTU
- The cooktop features a grill
- Installation requirements call for the range hood to be 33" over the range (3" above recommended maximum height)

Blower CFM Option 1: (Using the guidelines above)

The blower must equal a minimum of 600 CFM (60000 BTU) + 200 CFM (for Grill requirement) + 100 CFM (for 3" of installation height) = 900 CFM

Blower CFM Option 2: (Using the guidelines above)

Select a range hood that is a minimum of 3" WIDER than the cooktop, a minimum 600 CFM (60000 BTU) + 200 CFM (for Grill requirement) = 800 CFM

Internal, In-Line and Exterior blower specifications table

HVI-2100 CERTIFICATION

Broan range hoods are tested and certified by the Home Ventilating Institute. This is your assurance that each Broan unit has been tested and found to consistently deliver the air and sound performance specified.

■ Refers to ENERGY STAR Homes V3, HVAC System Quality Installation Rater Checklist items 8.1 and 9.1.

Broan range hoods can be used to comply with California's Title 24.

* Mounting Height is measured from the top of the cooktop to the bottom of the Hood. **Except for QS and QP Series which is measured from the top of the hood to the top of the cooktop.**

** Visible height of Chimney when in the raised position.

*** Minimum Height is 24" when using optional RMP series backsplash.

† SS=430 Stainless Steel, BL=Black on Black, AL=Almond w/Black Trim, AA=Almond on Almond, BT=Bisque/Biscuit w/Black Trim, BC=Bisque/Biscuit on Bisque/Biscuit, WW=White on White, WH=White w/Black Trim.

††† External blower for E60000, E64000, 61000EX, 63000EX, RMPE, RMIP, RMDDEX and E66000 Series.

†††† RMIP Series require 332KR Rough-In Kit when used with Exterior or In-Line blowers.

‡ Performance ratings assume use of 10" round transition provided with blowers. Note: "Bisque/Biscuit" is a new color name for "Biscuit." The actual color remains unchanged.

HVI-2100 CERTIFICATION

Broan range hoods are tested and certified by the Home Ventilating Institute. This is your assurance that each Broan unit has been tested and found to consistently deliver the air and sound performance specified.

■ Refers to ENERGY STAR Homes V3, HVAC System Quality Installation Rater Checklist items 8.1 and 9.1.

Broan range hoods can be used to comply with California's Title 24.

THE LEADER IN RESIDENTIAL INDOOR AIR QUALITY.
WELCOME TO A BROAN HOME.

Broan® is America's leading brand of residential ventilation products including range hoods, ventilation fans, heater/fan/light combination units, balanced ventilation systems, whole-house fans and electric and solar-powered attic ventilators.
