Sweep Inlet Valve

function

The VacuSweep® Sweep Inlet Valve makes it easy for debris and dirt to be quickly swept and removed from non-carpeted surfaces. For use in kitchens, mudrooms, workshops, hair salons, retail stores, any sweepable area, either residential or commercial, the VacuSweep® Sweep Inlet Valve will clearly satisfy all your needs.

features

- Contemporary attractive design leaves no unsightly gaps when not in use.
- Vertical on/off toe movement permits ease of operation.
- Large opening facilitates acceptance of material being swept into valve.
- Flanged design reduces the requirement for trim plates.
- Rear entry design and sculptured corners allows for ease of installation when door is in an open position. Where space is limited the use of a 90° short socket elbow will be required (shown below - Part No. 382XS).
- Fits easily in the kick space of a cabinet, or within a 2"x4" stud wall.
