

Listed 96

#A205R Class II Aluminum 4 Bolt Connector

DESCRIPTION

- 4" long connector provides 2" of surface contact between conductors.
- Accommodates all main conductors including *A37R rope-lay lightning conductor*.
- Four 5/16" x 3/4" hex head stainless steel cap screws assure a positive electrical connection.
- Manufactured from high conductivity aluminum alloy.
- Recommended installation tool – 1/2" socket wrench, end wrench or nut driver.

APPLICATIONS

- Used when splicing aluminum conductors.
