

Insulation Displacement Connectors (IDC)

Create fast splice and tap connections on solid copper wires!

- *Designed for low voltage telecommunication cables.*
- *Connectors contain corrosion/moisture resistant gel sealant to protect connection.*
- *Quick, easy one-step splicing.*
- *Use with solid copper single-conductor wires.*

Insulation Displacement Connectors

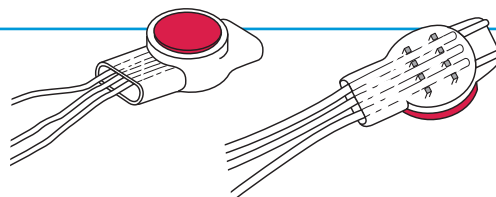

85-900, UB-I IDC Connector

Insulation displacement gel filled tap splicing connector for 2 wire applications. For solid wire conductors of 22-26 AWG (0.7–0.4mm) having maximum insulated O.D. of .060 in. (1.52mm).

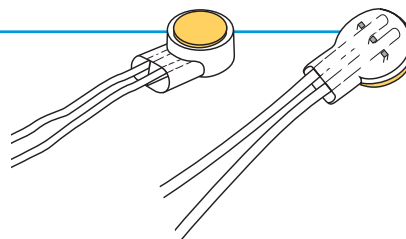

85-925, UR-I IDC Connector

Insulation displacement gel filled butt splicing connector for 3 wire applications. For solid wire conductors of 19-26 AWG (0.9–0.4mm) having maximum insulated O.D. of .066 in. (1.68mm).

85-950, UY-I IDC Connector

Insulation displacement gel filled butt splicing connector for 2 wire applications. For solid wire conductors of 22-26 AWG (0.7–0.4mm) having maximum insulated O.D. of .060 in. (1.52mm).

Description	Qty.	Conductor OD	Max. Insulation OD	Cat. No.
<i>UB-I, 2-Wire Tap Splice IDC</i>	25	22–26 AWG (0.7–0.4mm)	0.060 in. (1.52mm)	85-900
<i>UR-I, 3-Wire Butt Splice IDC</i>	25	19–26 AWG (0.9–0.4mm)	0.066 in. (1.68mm)	85-925
<i>UY-I, 2-Wire Butt Splice IDC</i>	25	22–26 AWG (0.7–0.4mm)	0.060 in. (1.52mm)	85-950

Kinetic Super™ Wire Stripper/Crimper

The Kinetic Super Stripper/Crimper is smartly engineered to make your job easier. Packed with powerful features, it is ideal for use with all major brands of IDC connectors. Cat. No. 45-715

Convenient plier nose for extra gripping strength

Wire strippers

Thumb-Valley™ thumb guide

Wire looping holes

Shear-Cut™ bolt cutters

Pocket-Locket™ slide lock

Textured non-slip grips

Santoprene® molded grip
