

Components

Modules

Shielded Jack Modules

Installation

Rear cable management recommended to provide additional support for cable.

Mounting with standard mounting hardware

Fig. 1

Grounding Options

Panduit offers two options for grounding patch panels:

Option #1 is the preferred method of grounding a patch panel with the optional green grounding screw kits (sold separately). The green screws ground in 2 ways. One is through the thread forming screw body. Second is through the serrations under the screw head. See Fig. 2.

See Catalog for
Optional Grounding Kits:
#12-24 x 1/2" - RGTBSG
M6 x 15mm - RGTBSM6G
