Floor Boxes Selection Guide

Flush Service Floor Boxes – Outlets at Floor Level

600 Series

Round, Cast Iron

- Tile flange included
- P60 Series Carpet flanges
- P60 Series Covers

(see pages C17 to C19)

68 Series

Round, Stamped Steel

- Tile flange included
- P60 Series Carpet flanges
- P60 Series Covers

(see pages C16 to C19)

68HP Series

Round PVC Floor Box

- 4 Power, 6 Data
- 3 Compartments 1-1/2 in. and 1 in. in-line hubs
- Slide latch cover — No tools required
- Lids lay flat on the floor while-in-use
- Solid brass or aluminum cover

(see pages C30 to C32)

640 Series & 840 Series

Rectangular, Cast Iron

- Tile flanges included
- P64 Series Carpet flanges
- P64 Series Covers
- Up to 2 in. conduit
- Up to 4-gang

(see pages C22 to C24)

740 Series

Rectangular, Stamped Steel

- 640P Series Tile & Carpet flanges
- P64 Series Covers
- Up to 3-gang

(see pages C26 to C29)

61W

60 Series

Rectangular, Stamped Steel

- For wood sub-floors
- P64 Series Carpet flanges
- P64 Series Covers

62W

(see pages C6 to C8)

640P Series

Rectangular, Nonmetallic

- 640P Series Tile & Carpet flanges
- P64 Series Covers
- Up to 3-gang

(see pages C42 to C43)

Concealed Service Floor Boxes – Outlets Below Floor Level

663 Series

2 Compartments

- P62-TAR adjusting ring & tile flange
- P60 Series Carpet flanges
- P60-3B & P62 Series Covers

663-SC

(see pages C44 to C45)

664 Series

2 Compartments

- 664 Series Covers (tile & carpet)
- 664-CI: Cast iron
- 664-S: Shallow 2-7/8 in. height

664-SC

664-CI

(see pages C46 to C48)

665 Series

4 Compartments

- 665 Series Covers (tile & carpet)
- 665-CI: Cast iron

665-SC

665-CI

(see pages C49 to C53)

668 Series

4 Compartments

- 668 Series Covers (tile & carpet)
- 668 Series Tile flanges
- Shallow 2-1/2 in. height

668-S

(see pages C56 to C57)

667 Series

4 Compartments

- 667 Series Covers (tile & carpet)
- 1 Compartment = 2 Gangs

667-SC

(see pages C54 to C55)

Poke-Through and AFM Selection Guide

Poke-Through Systems

Flush Service

(see pages C60 to C63)

FPT4 Series

- 4 in. Core drill dia.
- 4 Power + 4 communication outlets
- Also 2 power + 6 or 8 communication outlets
- Brass or aluminum cover

(see page C64)

FPT3 Series

- 3 in. Core drill dia.
- Duplex receptacle + 2 communication outlets
- Brass or aluminum cover

(see page C65)

RPT6 Series

- 6 in. Core drill dia.
- Greater capacity than typical 3 in. and 4 in. core poke-throughs
- Configurable compartment bottom junction box includes a cover with 1-1/4 in., 1-1/2 in. or 2 in. KO

(see page C66)

FPT Series

- 3 in. Core drill dia.
- Duplex receptacle
- Brass, aluminum or nonmetallic cover

(see page C67)

FFPT4 Series

- 4 in. Core drill dia.
- 3/4 in. Hub for power & 1-1/4 in. Hub for communication
- Brass or aluminum cover

(see page C68)

FFPT3 Series

- 3 in. Core drill dia.
- Concentric 2 in. & 1-1/4 in. Hubs for power or communication
- Brass or aluminum cover

(see page C69)

FFPT6 Series

- 6 in. Core drill dia.
- Power and/or communication connections: 3/4 in., 1-1/4 in. or 2 in. threaded hubs

(see page C70-C72)

FPT Series

- 3 in. Core drill dia.
- (2) 1/2 in. Hubs & (1) 3/4 in. Hub for power and/or communication
- Nonmetallic cover

Access Floor Modules (AFM) for Raised Floors

AFM-2 Series

(see pages C74 – C75)

- 2 Compartments

AFM-4 Series

(see pages C76 – C77)

- 3 Compartments

AFM-6 Series

AFM-6

- 3 Compartments

AFM-6S2

- 4 Compartments
- 2-1/2 in. depth for shallow raised floors

(see pages C78 to C81)

AFM-6V

- 3 Compartments
- Accepts standard wall plates for data jacks

AFM-8 Series

- 10 Compartments

(see page C82)

GAB Series

- GAB-8: Stamped steel
- For use with AFM-8 in concrete applications

GAB-8

(see page C83)

Floor Boxes Systems

665-SC

840, 640 Series —
Flush Multiple Service

The aesthetic and technical needs of today's buildings are as diverse as the equipment that fills them. Small wonder, then, that floor boxes can continue to solve the needs of today and the future as they did in the early 1900's when they were invented.

They are still a contemporary, capable and cost-effective wire management system. Steel City®, a pioneer in both the design and applications of floor boxes since 1904, invites you to discover, or rediscover, the possibilities.

Three Levels of Service

664 Series

Concealed Service

All power, communications and data devices are hidden below the finished floor level.

P60 Series — Power Application

600 Series

Flush Service

All power devices are mounted at the finished floor level.

P60 Series — Communication/Data Application

Multiple Service Capabilities: Power, Communication and Data in One Unit

New Construction or Retrofit Applications

Flush Service Floor Boxes

60W Series Floor Boxes

For Wood Subfloors!

Steel City® 60W Series Floor Boxes provide single – and multi-gang solutions or wood subfloor applications.

- NEW! Three-gang configuration for high-capacity, multi-service installations.
- NEW! Larger KOs (3/4 in. & 1 in.) have been added to each gang for application flexibility.
- Adjustable mounting brackets allow for various finished floor-material heights (**hardwoods, tile or carpet**).

Residential Floor Boxes

Drop-In Floor Box

Features

- Single hole installation
- Solid brass cover has a light lacquer finish to resist wear – Ideal for high traffic areas
- Accommodates high and low voltage applications
- Includes single gang grounded* receptacle, low voltage telephone/cable plate (data jacks not included) and blank plate for custom installations
- Available with or without a hole saw
- 11.8 inch cubic capacity
- For wood floor installations
- Ideal for residential and home offices
- Eliminates the need for extension cords
- Superior aesthetics – Ideal for home offices and entertainment rooms
- cULus Listed floor box
- 2.25 in. installation hole diameter

*Tamper-resistant

The Carlon® Drop-In Floor Box with Brass Cover combines many of the same features of our existing Floor Box line with the strength, durability and style necessary to accommodate today's residential electrical/telecommunication needs.

The Carlon Drop-in-Floor Box is the easiest way for contractors to put a floor socket anywhere they need it! It's designed to accommodate high and low voltage applications and comes complete with everything needed for installation – Floor box, Brass Cover, hole saw, wired receptacle, two-hole low voltage plate, blank plate, mounting screws and wire connectors.

Note: The Drop-In Floor Box is available with or without a hole saw.

Installed

Specifications

Cat. No.	Cover	Description	Std. Ctn. Qty.	Std. Ctn. Wt. (lb.)
E971FBDI-2	Brass	With Hole Saw	5	6.5
E971FBDIB-2		Without Hole Saw	20	17.6
E971FADI-2	Aluminum	With Hole Saw	5	6.5
E971FADIB-2		Without Hole Saw	20	17.6

Residential Floor Boxes

Installation

Warning: De-energize system prior to installation

1. Cut a 2-3/8 in. hole through carpeting before using hole saw.

2. Drill hole in floor using hole saw.

3. Pull cable through floor.

4. Connect receptacle wires to cable. Be sure to match wire colour(s).

5. Secure wire clamp on bottom of tube.

6. Brass cover snaps into place. Use a small screwdriver to pry open brass cover to plug in appliance.

7. Align the three latches on the low voltage plate with the three latch holes in the round floor box tube.

8. Remove receptacle by pressing three tabs located on side of tube.

Rectangular Floor Boxes

1-, 2- and 3-Gang

Features

- Covers require no adjusting collar. Two screws assure a flush, secure installation.
- Nonmetallic PVC construction, watertight gasket and corrosion-resistant hardware assure long life and reliable performance even in harsh and/or corrosive environments
- One consistent box depth simplifies ordering time and reduces inventory
- Saves time and money on installations with simple saw cut to floor level
- Concrete tight and suitable for any on grade/below grade application; concrete or wood sub-floor construction approved
- Convenient cubic inch capacity markings on inside allow for easy inspection
- PVC molded hubs and reducer plugs included
- Accepts 1/2 in., 3/4 in. and 1 in. conduit tubing or raceway
- Rectangular sides are drillable
- For tile and carpet applications
- Cover options include solid brass, stainless steel and nonmetallic (brown, slate and caramel)
- UL scrub water tested, approved for all types of finished flooring

Carlton® Rectangular Floor Box Systems – two-way, data and communications plus easy double or triple ganging, too.

Two-in-one data and communications capability cuts installation time and cost even more, while simple two- and three-gang modularity gives you the flexibility, installation ease and cost-savings no other nonmetallic boxes can.

The covers attach without the use of fasteners, providing a professional, clean installation as well as preserving the aesthetic look of the product. Take a close look at what our rectangular floor box systems can offer you.

Rectangular Floor Boxes

Installation

With our rectangular boxes, one SKU is all you ever need. Simply remove appropriate sides and slide boxes together to create two- or three-gang boxes for on-the-job flexibility no competitor offers.

Specifications

Rectangular Floor Box

Cat. No.	Material	Number of gangs	Internal Volume (cu. in.)	Min. Concrete Depth (in.)	Hubs	Reducer Plugs	Std. Ctn. Qty.	Std. Ctn. Wt. lb.

Activation Kit

Activation kit provides components to accommodate all data and communications devices plus a divider.

Cat. No.	Material	Std. Ctn. Qty.	Std. Ctn. Wt. lb.
E976AK2	PVC	3	2.47

Rectangular Floor Box Covers Nonmetallic

1-, 2- and 3-Gang

Features

- High impact resistant thermoplastic
- Field reversible for tile or carpet
- Gasketed for a watertight seal
- Double door design
- For tile and carpet applications
- Scrub water tested

On-the-job flexibility extends to our rectangular box covers. Each one-, two or three-gang cover is suitable for any wiring application and can be used with **any floor surface**. Nonmetallic covers are even field reversible for tile or carpet. Double door feature allows easy access to the device and helps keep stray cords organized.

Carlton® Rectangular Floor box covers do not require a separate carpet flange. The carpet flange is part of the cover and may be removed for tile application.

Rectangular Floor Box Covers Brass and Stainless Steel

1-, 2- and 3-Gang

Features

- Rugged construction
- Coated with a light lacquer finish for extra protection
- Covers include a cord door
- Gasketed for watertight applications
- Scrub water tested

Carlton® Brass and Stainless Steel rectangular Floor Box Covers add a classic touch to all floor box installations and are particularly suited for use in high-traffic areas because of the resistance to wear. The gasket gives a watertight seal and the light lacquer finish provides extra protection.

Flush Service Floor Boxes

740 Series – Multiple-Gang Floor Boxes for Power and Communications

Features

- Available in shallow (2-5/8 in. and deep 3-5/8 in.) versions
- Available in one-, two- and three-gang versions
- Two- and three-gang boxes are supplied with customer-installed dividers
- 16 ga. pre-galvanized steel construction
- Adjustable with four exterior leveling legs capable of 2 in. pre-pour adjustment and an interior leveling ring capable of 1-1/4 in. after pour adjustment
- Made with a variety of KOs ranging from 1/2 in. to 1-1/4 in.
- Boxes utilize the 640P Series metallic and nonmetallic floor box accessories with the unique one-step installation method
- Shipped with expendable steel cap to prevent ingress of concrete at installation

The new 740 Series line of stamped-steel floor boxes are an extension of T&B's industry-leading 640 and 840 Series cast-iron floor boxes. The new boxes provide flush service for power, communications and data. Multiple-gang boxes allow the user to place high- and low-voltage in a single floor box. The 740 Series can be used for **carpet or tile applications**.

Flush Service Floor Boxes

Round Floor Boxes for Power and Communications: 68-HP Series

Innovative 3-Gang Round Floor Box for Power, Data and AV

LARGEST IN THE INDUSTRY

Unmatched flexibility to configure any combination of power and communications devices.

- Accepts standard devices from any manufacturer, including duplex, GFCI, locking, hospital grade or isolated ground receptacles
- Accommodates a wide variety of multi-media devices through the use of rectangular adapters

Combines the **Capacity** of a 3-gang box with the **Affordability** of a round nonmetallic floor box.

- 6 in. diameter round nonmetallic floor box — the largest in the industry
- Large inline hubs for power and data wiring: 1 in. for power, 1-1/2 in. for data

Flush Service Floor Boxes

68-P – Round Nonmetallic Floor Box

The 68-P floor box provides flush service for power, communications and data. The nonmetallic floor box is used in concrete floors and is suitable for **carpet, tile or wood applications**.

- High-strength rigid PVC construction, non-corrosive
- Easy installation with no leveling required – just cut the box level with the concrete after the pour
- Compatible with standard-schedule PVC conduit (1 in., 3/4 in. and 1/2 in. reducers included)
- Pre-packaged with concrete cap and six hub plugs

*Also includes steel seating plate for receptacles

Flush Service Floor Boxes

Dual-Voltage Kits for 68-P Nonmetallic Series

- Voltage divider has easy-cut score lines to accommodate concrete depths of 3 to 6 inches
- Faceplate has removable data plates and can accommodate GFCI or standard duplex receptacles
- Kit comes equipped with 4 standard keystone-size openings in the data plates. Other styles available include openings sized for Ortronics, Avaya, Panduit and Hubbell®
- MopTite™ cover uses a “Snap-Lock” to close the lid. No screws to turn... just push down the lid and it snaps in place. The cover uses a factory-installed gasket and exceeds all UL scrub-water exclusion requirements for carpet, wood and tile floors
- MopTite™ cover available in solid brass or aluminum
- Includes everything required for a standard installation (68P floor box, data jacks and receptacles not included)

Cat. No.	Description	Std. Ctn.

68P-DV-DP	Standard Data Plate to Accommodate 4 Keystone Jacks	

*CSA not Certified. Keystone data plates come standard with the kit. Other style data plates are available from T&B and can be ordered separately

Flush Service Floor Boxes

Features

- Carlton® round Floor Boxes allow for various thickness of concrete pours. Trim out is easy – just use a handsaw to cut off box at desired height to accommodate carpet, tile or other flooring
- Carlton leveling ring guarantees a level top every time, even if the box is tipped slightly during the pouring process

Round Floor Boxes

Round Floor Box System

Features

- Nonmetallic PVC construction, watertight gasket and corrosion-resistant hardware assure long life and reliable performance even in harsh and/or corrosive environments
- Covers are available for a variety of applications
- The same box depth simplifies ordering and reduces inventory
- For carpet and tile applications
- Cover options include: Brass, Stainless Steel and Nonmetallic (Ivory, Caramel, Taupe, Slate and Brown)
- Concrete tight and suitable for any on-grade/below grade application; concrete or wood floor construction approved
- Y-connector (E972Y) allows you to feed parallel runs of 3/4 in. conduit or to feed in/out from the same side for increased wiring and faster installation
- PVC molded hubs and reducer plugs included
- Accepts 1/2 in., 3/4 in. and 1 in. conduit, tubing or raceway
- UL scrub-water tested, approved for all types of finished flooring

Three-way versatility for power, data and communications

Carlton® Round Floor Boxes give you the same cost-saving advantages over metal boxes as our rectangular boxes. By letting you combine power, data and communications in the same box, you can dramatically reduce your installation time and cost compared to other nonmetallic boxes.

In addition, multi-use covers mean fewer SKUs to deal with and greater jobsite flexibility to increase your savings further. Take a closer look at all the advantages for yourself.

Round Floor Boxes

Nonmetallic Covers

- High impact-resistant thermoplastic
- Compatible with standard NEMA Duplex and 1-1/4 in. N.P.S. receptacles
- Drill points (3/8 in.) provided for low-voltage cable pass throughs
- 1-1/4 in. N.P.S. plugs may be modified to accept smaller fittings (3/8 in., 1/2 in. and 3/4 in.)
- **For carpet and tile applications**
- Scrub-water tested
- Approved for all types of finished flooring

Concrete applications

Wood sub-floor/raised floor applications

Use an appropriate Iberville®
3 in. x 2 in. Metal Switch Box with mounting ears

Lid closes flush with the floor, even with cords plugged in

Plug in power and communication cords and then close the lid to hide unsightly plugs and receptacles below the floor!

- Unique cover provides aesthetic recessed service with cost-effective box options for **concrete, wood sub-floor and raised-floor applications**
- Lid can be rotated to expose a small opening for cords, enabling the lid to close flush with the floor while in use
- Cover accepts one duplex or GFCI receptacle – no special device plates required (receptacle purchased separately)
- Cover accepts up to two communications jacks – includes one 2-port keystone data plate and one blank data plate for custom cut-outs or power-only applications (communications jacks purchased separately)
- Nonmetallic covers are available in black, grey, beige and brown
Black covers are available with an optional brass or aluminum flange
- Two set screws lock the cover in place – no gluing required

Use a Steel City®
Round PVC Floor Box,
catalogue number 68-P
(purchased separately)

Recessed Service Floor Boxes

68R Recessed Covers (cont'd)

Cover kit includes:

- Cover assembly
- Receptacle mounting plate
- Duplex receptacle insert
- 2-port keystone data plate
- Blank data plate
- Voltage divider

Technical Specifications

Important Application Note:

When using the 68R Recessed Cover with the 68-P floor box for concrete applications, the entire box depth (6 in.) is required. Prior to concrete pour, level the top of the box with the screed line of the concrete.

Recessed Service Floor Boxes

664 Series Floor Box

Multiple-Service Floor Boxes for Power, Communications and Data

Multiple-service floor boxes deliver power, communications and data from standard conduit with no exposed service fittings. Result: Open office planning flexibility. Ideal for the modern office with workstations that have power, communications and data equipment. Power receptacles and low-voltage connections can be enclosed underfloor in either steel or cast-iron bodies. Galvanized 14-gauge steel boxes are provided with knockouts from 3/4 in. to 1-1/4 in. Cast-iron bodies have threaded openings for 3/4 in. and 1 in. conduit.

- Two-compartment boxes are available in three types: stamped steel (664-SC), shallow (664-S) and cast iron (664-CI)
- Durable nonmetallic covers include a steel reinforcement plate for added strength
- New! Metallic covers in solid brass and aluminum provide aesthetics and durability
- Four leveling screws enable quick leveling to desired **concrete** depth
- Cover flange self-levels with the finished floor for easy installation

Material: Polycarbonate with 5/32 in. steel plate (see page C47 for metallic cover options)

Recessed Service Floor Boxes

665 Series Floor Boxes: 665SC

- **For concrete application**
- The 665 line is an extension of the industry-leading 664 Series; our concealed service line now allows the customer to install up to four device panels in one box
- Through the use of a unique nonmetallic wire tunnel, the installer can easily partition the power, voice/data requirements
- Four (4) device compartments can accommodate any combination of devices. For example: (3) duplex power devices and (1) duplex telephone device, or (2) voice and data connectors and (1) GFCI device and (1) blank, etc.
- Overall height of 3-1/2 in. allows for shallow pours when needed
- High-Strength polycarbonate cover with a 5/32 in. steel plate assures structural integrity
- Metallic Covers also available in solid brass and aluminum
- Four-side feed-through allows installer to feed through power or data/com service from any orientation
- Nonmetallic wire tunnels aesthetically clean. Full-width tunnel provides maximum feed-through capacity; nonmetallic material prevents conductor damage
- Total access area of 126 cu. in. allows for friendly installation of workstation cables
- Contains 28 knockouts (16 – 1-1/4 in. and 12 – 3/4 in. KOs) that provide increased flexibility when installed
- This CSA Listed, stamped-steel floor box can be installed with Thomas & Betts voice and data connector products
- Four 2-1/2 in. levelling screws provided with all boxes
- Device panels ordered separately

Cat. No.	Device Compartments (in.)				Device Access Area	Std. Ctn.

665-SC floor box does not include device plates or covers. Order separately
Material: Pre-Galvanized Steel

Recessed Service Floor Boxes

665 Series Floor Boxes: 665-CI

Cast Iron for Slab-On-Grade Applications

The new Steel City® 665 Cast Iron Floor Box provides a high-capacity power and data solution for ground-floor installations. This 4-gang recessed-service floor box is ideal for **concrete slab-on-grade applications**. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Aesthetic covers feature a recess to accept floor covering to match the surrounding floor.

- 4-gang, recessed service for a high-capacity aesthetic floor-box solution
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments
- Heavy-duty, nonmetallic covers with steel reinforcement plates are available in a wide variety of colours to match any decor (black, grey, brown and beige)
- Metallic Covers.
- Separate cord door in the cover latches firmly in the open position to prevent damage to cables
- MopTite™ covers meet UL scrub-water exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any cast iron recessed 4-gang floor box
- Inline 1-1/4 in. hubs allow high-capacity straight runs for communication wiring

Recessed Service Floor Boxes

665 Series Floor Boxes: 665-AV2

Decora® Adapters and Keystone Inserts for GFCI Device Plates. (Not included)

2 KOs for Audio Visual Applications

- For concrete application
- 2 KOs enable pre-terminated AV cables and connectors to be pulled directly through the conduit
- Accepts standard 665 Series covers and device plates for power, voice, data and audio visual connections
- Decora® style adapters allow voice, data and AV connectors to be mounted in a standard GFCI device plate
- Keystone style voice, data and AV connectors meet a wide range of low-voltage applications. All connectors are recessed for flush mounting in floor box applications.
- Device plates are available that accept Extron® MAAP plates to accommodate any AV requirements (Extron® MAAP plates purchased from an authorized Extron distributor)
- Metallic covers provide a durable, aesthetic installation, including industry-exclusive solid brass covers (not painted or plated, aluminum also available)

Each box requires (4) device plates. Material: Pre-galvanized steel.

Recessed Service Floor Boxes

667-SC Floor Box

- **For concrete application**
- Largest capacity concealed-service floor box on the market.
 - Four “double-gangs” allow for two duplex receptacles per gang, for a total of eight receptacles per box
 - Each gang has 40 cu. in. of capacity
 - Box interior has 128 cu. in. of capacity
- Standard box configuration is for up to eight power and/or low-voltage devices
 - Box design allows for feed-through cabling for power and low-voltage conductors
- Shallow design
 - 3 in. overall height is ideal for renovations and upper level floor installations
- Full line of low-profile covers
 - Utilizes same quality cover as AFM-8 Access Floor Module
 - High-strength polycarbonate
 - Steel reinforced for added durability
 - Two receptacle cable exit ports
 - 64 sq. in. opening provides easy access to device panels
 - 1/4 in. recess for carpet/tile insert
 - Available in grey, black, brown and beige
- Box is manufactured with (1) 3/4 in., (3) 1 in. and (1) 1-1/4 in. KOs per gang.– This includes a 1 in. and 1-1/4 KO located in the bottom
- Full complement of device panels
 - Device panels available with one or two duplex openings, one or two GFCI openings, six standard “keystone” with Omni 110 bezels and blanks
- Provided with leveling legs and base feet
 - Base feet can be attached to form preventing box movement during concrete pour.
 - Leveling legs provide up to 1-1/2 in. pre-pour adjustment
- Manufactured from 14-gauge pre-galvanized steel
 - Quality construction provides added durability and rust protection
- MopTite™ covers meet UL scrub-water exclusion requirements for carpet, tile and wood

New MopTite™ Covers exceed UL scrub-water exclusion requirements

Recessed Service Floor Boxes

668-S Ultra-Shallow Floor Box

The 668-S Ultra-Shallow Floor Box from Thomas & Betts provides a high-capacity power and data solution for shallow **concrete floors**. The low-profile 4-gang box is constructed of galvanized stamped steel. Removable voltage dividers enable users to customize wiring configurations by feeding two or more adjacent compartments with a single conduit. Metallic covers with durable powder-coat finish are designed to match any decor, while optional edge trims enable covers to be mounted completely flush with the floor in tile or wood floor applications.

- Low profile (2-1/2 in. height) for shallow concrete pours
- 4-gang, recessed service for a high-capacity, aesthetic floor box solution
- Stamped-steel box construction
- Removable voltage dividers between compartments enable a single conduit to feed two or more adjacent compartments
- Metallic covers feature durable powder-coat paint to match any decor (black, grey, brown and beige)
- Heavy-duty cord door in the cover latches firmly in the open position to prevent damage to cables
- Optional tile trim enables flush mounting for tile and wood floor applications
- MopTite™ covers meet UL scrub-water exclusion requirements for carpet, tile and wood
- Largest cubic-inch capacity of any shallow, recessed 4-gang floor box
- Additional KOs (up to 2 in.) on the bottom of the box enable installation flexibility
- Custom device panels are available – contact your Regional Sales Office about these offerings

Poke-Through Systems

Fire-Rated Poke-Through Systems

Capacity, Durability, Flexibility —
Everything You've Been Looking for in a Poke-Through.

FPT4

FFPT4

Poke-Through Systems

Fire-Rated Poke-Through Systems

Flush Power & Communications

FPT4 Series

- Maximum capacity and flexibility for flush-mounted power and communications devices, including the popular 4 x 4 configuration (4 power outlets, 4 communications devices)
- Core Drill Size: 4 in.

RPT6 Series

- Core Drill Size: 6 in.
- Greater capacity than typical 3 in. and 4 in. core poke-throughs
- Configurable compartment bottom junction box includes a cover with 1-1/4 in., 1-1/2 in. or 2 in. KO

FPT Flush Series

- Accepts 1 duplex receptacle
- Core Drill Size: 3 in.

FPT3 Series

- Accommodates 1 duplex receptacle and 2 data jacks
- Core Drill Size: 3 in.

Furniture Feed

FFPT4 Series

- 2 Conduits Hubs: 3/4 in. for power and 1-1/4 in. for communications
- Core Drill Size: 4 in.

FFPT6 Series

- Core Drill Size: 6 in.
- Power and/or communication connections: 3/4 in., 1-1/4 in. or 2 in. threaded hubs

FFPT3 Series

- Concentric 2 in. and 1-1/4 in. hub for power and communications
- Core Drill Size: 3 in.

FPT Furniture Feed Series

- 3 Conduit Hubs: (2) 1/2 in. and (1) 3/4 in. for power and communications
- Core Drill Size: 3 in.

Above Floor Pedestal

FPT Above-Floor Pedestals

- Available in 2 compartment and 4 compartment for power and communications
- Core Drill Size: 3 in.

Modular Poke-Through System

FPT4 Series – Flush Power and Communications

The FPT4 Series provides everything you look for in a flush poke-through — Capacity, Durability, Flexibility, Accessibility and Aesthetics

NEW COVER DESIGN

Capacity

- Four standard configurations:
 - 4 power receptacles + 4 communications devices (4 x 4)
 - 2 power receptacles + 6 communications devices
 - 8 communications devices
 - 1 locking receptacle + communications devices
- Core Drill Size: 4 in.

Durability

- Solid brass or aluminum covers protect devices from damage and debris when not in use – no exposed plastic components!
- Patented latching lid eliminates easily damaged, hard-to-use locking screws.

Accessibility

- Full access to communications compartment through the cover without exposing power compartments – even after it's installed in the floor!
- “Straight-through” wiring of communications cabling for easy installation and changes.

Flexibility

- Configurable design to meet any project requirements:
 - 4 standard configurations for power and communications devices
 - 20A receptacles can be wired as isolated ground (orange labels provided)
 - Communications plates available to accommodate data jacks from manufacturers
 - Accepts Extron® MAAP plates for AV components
- Threaded conduit hubs enable all communications cabling to be enclosed in a single conduit:
 - Integral 1 in. hub on the 4 x 4 – no extra parts needed!
 - Optional hubs available for other configurations
- Junction box features (5) 1/2 in. and (5) 3/4 in. knockouts (27 cubic inch capacity)

Aesthetics

- The only 4 in. core poke-through for power and communications with the entire cover made of solid brass – features an aesthetic brushed finish!
- Solid aluminum covers also available with brushed finish or powder-coated finishes in black, grey, brown and beige to match any décor – the most colours in the industry!

Flush Power and Communications

FPT4 Series – Poke-Through: 4 Power and Communications

- Four 20A Receptacles, two circuits, six 12 AWG wires, prewired, pigtail ends in junction box (can be wired as isolated, labels provided)
- Keystone Communications Device Plate with four Keystone Category 5e Data Jacks – see page C63 for optional Communications Device Plates for Compartment A
- Integral 1 in. threaded conduit hub for communication wiring (cast iron)

Flush Power and Communications

FPT3 Series – Poke-Through: 2 Power and 2 Communications

This aesthetic, easy-to-use Poke-Through provides an ideal power and data solution – great for new construction for upgrading existing 3 in. core installations.

- Capacity: 1 duplex receptacle and 2 data jacks (included)
- Core Drill Size 3 in.
- Durable solid brass or aluminum covers protect devices from damage and debris when not in use – no exposed plastic components
- Powder-coated aluminum covers are available in black, grey, brown and beige to match any décor – the most colours in the industry
- Brushed brass and aluminum finishes provide superior aesthetics
- Slide latches enable tool-less access to individual receptacles – eliminates the need for hard-to-use locking screws
- Accepts Keystone, Leviton® or Hubbell® data jacks
- Junction box features (3) 1/2 in. and (4) 3/4 in. knockouts (13 cubic inch capacity)
- Includes (1) 20A duplex receptacle, pre-wired, pigtail ends in junction box
- Includes (2) Leviton CAT 5e data jacks

Flush Power and Communications

RPT6 Series – Recessed Poke-Through

Given the limitations on the number of holes that can be drilled in a floor, it is important to maximize the capacity of each location.

The RPT6 series offers a configurable solution that provides high capacity for both power wiring and communications cabling in a single-core drill location.

- Greater capacity than typical 3 in. and 4 in. core poke-throughs
- Core drill size: 6 in.
- Solid brass, black and brushed aluminum finishes provide superior aesthetics and durability
- Customer can use off-the-shelf wiring devices
- Center compartment can accept GFCIs
- Recessed service conceals devices below floor level
- Configurable compartment bottom junction box includes a cover with 1-1/4 in., 1-1/2 in. or 2 in. knockouts
- UL 263 – 2-hour fire test

The **new interactive 3D** view of the RPT6 is available online under www.tnb.ca

Flush Power and Communications

FPT Flush Series – Poke-Through: 2 Power

The Steel City® FPT Poke-Through Series provides an economical solution for installing a duplex receptacle in an existing floor – right where you need it.

- Capacity: 1 duplex receptacle
- Core Drill Size 3 in.
- Brushed brass and aluminum covers provide superior aesthetics and durability
- Nonmetallic covers are available in black, grey, beige and brown
- Nonmetallic covers include openings for 3 communications cables
- Integral junction box features (5) 1/2 in. and (5) 3/4 in. knockouts (27 cubic inch capacity)
- Assembled units include (1) 20A duplex receptacle, pre-wired with pigtail ends in junction box

FFPT4 Series Poke-Through

With limitations on the number of holes that can be drilled in a floor, it is important to maximize the capacity of each location. The FFPT4 Series provides high capacity for both power wiring and communications cabling when feeding modular furniture — in a single-core drill location!

- Capacity: 3/4 in. hub for power wiring and 1-1/4 in. hub communications cabling (plugs included)
- Core Drill Size 4 in.
- Solid brass and aluminum finishes provide superior aesthetics and durability
- Powder-coated aluminum covers are available in black, grey, brown and beige to match any décor – the most colours in the industry
- Integral junction box features (5) 1/2 in. and (5) 3/4 in. knockouts (27 cubic inch capacity)

Installation Spacing

- Minimum of 2-ft on center
- Not more than one Poke-Through per 65 sq. ft. of floor area in each span

Access Floor Modules

Steel City® Access Floor Modules from Thomas & Betts eliminate the clutter of power, voice and data lines by keeping everything out of sight but conveniently close at hand. Our easy-to-

install Access Floor Modules are designed to blend with any décor, while providing the durability and versatility you need to meet the growing demands of today's high-tech offices. You can use our Access Floor Modules with virtually any type of raised floor. Our system is designed to provide a simple, strong and adaptable solution to even the most demanding wire-management needs.

Range of Box Sizes Designed to Meet the Needs of any Application. Now and Later.

With six sizes to choose from, our Access Floor Modules handle a broad range of wiring needs, from single power lines to complex data and voice systems. In fact, our largest unit offers 325 cu. in. of space, making it the roomiest in the industry. And, because our modules are easy to install and relocate, you can easily change box sizes or reposition modules as office configurations change.

New, Low-Profile Box Fits Right In with Shallower Raised Floors.

For installations where shallower raised floors are needed, Thomas & Betts has developed a low-profile Access Floor Module to provide the same accessibility and convenience where space is a premium. Just 2-1/2 inches deep, it can still accommodate a variety of power, voice and data connections.

Wide Variety of Interchangeable Power and Data Panels Adapt to Changing Demands.

Our extensive line of panels and connection devices maximize the versatility of our Access Floor Modules. All our panels are designed to be easy to connect, disconnect and rearrange to reduce on-site installation time. And Thomas & Betts is continually developing new configurations to meet the requirements of virtually any installation, especially for the fast-growing needs of voice and data communication.

Durable, Solid Steel Covers Support Heavy Loads to Protect Important Connections.

We've reinforced the resilient nylon covers of our modules with a 5/32 in. steel plate to prevent buckling under heavy furniture and equipment. The beveled sides enable quick and unobstructed installation in the raised floor.

In addition, our retractable exit not only helps prevent tripping, but protects cable connections by sealing out dust and debris. And, as with all Thomas & Betts products, our Access Floor Modules are constructed to meet our high standards for durability, safety and reliability.

Steel City® Access Floor Modules Provide Outstanding Performance Without Standing Out.

The hinged service top on our modules sits flush with the floor and provides complete access to the connections within. The nylon frame comes in grey, brown, beige and black.

Our Access Floor Modules keep wire connections close-at-hand but not under foot. The widest variety of box sizes, panels and devices in the industry provides exceptional versatility for changing office needs. Look below the surface and see how Steel City® Access Floor Modules can manage all your power, voice and data connections – today and tomorrow.

OPJDU6L-WH	Cat-6e Data Jack, White	
OPJV6CL-WH	Phone Jack, 6-Conductor, White	
OPA35-WH	3.5 mm Stereo Connector, Recessed, Female-to-Female, White	5
OPARCAW	RCA Connector – White, Recessed, Female-to-Female	
OPARCAR	RCA Connector – Red, Recessed, Female-to-Female	
OPARCAY	RCA Connector – Yellow, Recessed, Female-to-Female	
OPAFR	F-Connector – Recessed, 1 GHz, Female-to-Female, Red	100
OPAS-WH	S-Video Connector, 4-Pin, recessed, Female-to-Female, White	
OPAHDMI-WH	HDMI Connector, Recessed, Female-to-Female, White	
OPAB-WH	Blank Insert, White	

*SPECIAL INSTALLATION NOTE: When using these AV connectors with OPODEC4-WH & OPODEC6-WH Decora Adapters, only a Blank Insert (OPAB-WH) can be used in the same horizontal row. Trim the ears off the Blank Insert and install prior to installing the AV connector in the row.

Keystone / Data Accessories

Keystone Category 5e Jacks

- Universal «Keystone» mounting configuration
- Labeled for both 568A and 568B wiring
- Versatile IDC design accommodates 110 or Krone punchdown tools
- Accepts universal «Keystone» jacks and adapters for maximum flexibility
- Accepts category 6e Jacks
