

Low Voltage Brackets and Kits

Low Voltage Kit

The Carlton Low Voltage Adjustable Floor Bracket is specifically designed for the low voltage, structured cabling market... the floor box is industry standard orange to identify low voltage applications, the open design provides the space needed for low voltage bend radius requirements and the Leviton QuickPort® Quad 106® Insert provides up to four low voltage outlets ports. The Carlton Low Voltage Adjustable Floor Bracket is ideal for any residential or commercial low voltage application.

The floor bracket also features a patented screw design allowing it to be adjusted to most finished floor heights by simply turning the screw clockwise or counterclockwise and adjusting flush to the floor.

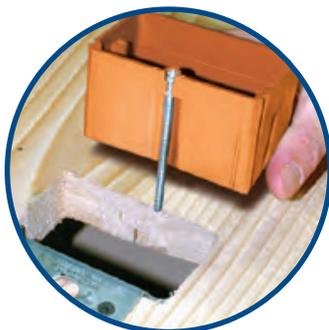

The floor bracket kit comes complete with a nonmetallic (white or ivory) or brass cover, a Leviton QuickPort® Quad 106® Insert, new work and old work metal mounting brackets and mounting screws.
