

ERICO HAMMERLOCK Ground Clamp – EHL58C1V

The ERICO HAMMERLOCK irreversible grounding connector mechanically connects the grounding conductor to the ground rod. Machined from highly conductive copper, the state-of-the-art ERICO HAMMERLOCK provides a low resistance connection designed to withstand ground fault currents and lightning transients. The connector's mechanically rugged design will help ensure that the highest level of performance is maintained for many years after the connection has been buried in the harsh underground environment.

Installing the ERICO HAMMERLOCK is as easy as swinging a hammer and requires no special tools or training. The ERICO HAMMERLOCK can be installed three to five times faster than an acorn clamp and provides a high-quality grounding connection that is easy to use and withstands 100% of the current carrying capacity of the conductor.

- Irreversible connection with excellent mechanical strength
- Fast and simple installation requires only a hammer
- No special training required
- Low resistance connection
- Provides a visual indication of completed connection
- Allows for "T" or pass-through connections

Part Number	EHL58C1V
Ground Rod Type	Copper-bonded
Material	Copper
Ground Rod Diameter, Nominal	5/8"
Ground Rod Diameter, Actual (Ø)	0.56"
Conductor Size	#4 Stranded - #2 Stranded 25 mm ² Stranded
Number of Conductors	1
Certifications	cULus
Standard Packaging Quantity	25 pc
UPC	78285644860
EAN-13	8711893040562

UL, UR, cUL, cUR, cULus and cURus are registered certification marks of UL LLC.

WARNING

Pentair products shall be installed and used only as indicated in Pentair's product instruction sheets and training materials. Instruction sheets are available at erico.pentair.com and from your Pentair customer service representative. Improper installation, misuse, misapplication or other failure to completely follow Pentair's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death and/or void your warranty.
