

# HIGH ROLLERS

An in-depth look at what the world's wealthiest people do with their money. In this infographic, high-net-worth individuals (HNWIs) are defined as having a net worth of more than \$1 million, excluding the value of their primary residence. Ultra-HNWIs (UHNWIs) are those with a net worth of more than \$30 million, also excluding the value of their primary residence

2,696

number of billionaires worldwide by end of 2018, up 21 per cent from 2013

Knight Frank Research 2019

19.6m

number of millionaires, up 13 per cent from 2013

Knight Frank Research 2019

198k

number of ultra-high-net-worth individuals, up 22 per cent from 2013

Knight Frank Research 2019

61%

of the global HNWl population lives in just four countries: United States, Japan, Germany and China

Capgemini 2019

4%

increase in Middle Eastern HNWIs financial assets in 2018 – the only major region to experience growth last year
