Tender Text

Turning lock, for subsequent or additional installation in the fitting cover of cable trays, for distributor tray covers as well as for wide span extension T-piece cover, including electro galvanised mushroom head screw with slot FL 6X12-S DIN 603 and electro galvanised safety nut SMS 6 DIN EN ISO 10511. Use outdoors, due to external influences such as wind loads, is only possible with an additional safety device (self-tapping screws, steel band etc.). When fastening, please note that a minimum distance of ≥ 50 mm to the cover start/end must be maintained.

Furthermore, it must be ensured that the screw head slot is mounted flush with the fastening lug of the turnbuckle plate. This ensures that all twist-locks on the cover are properly closed (position of the screw head slot) at a later date.

Used for : Fitting covers of cable trays
 Distributor tray covers RDSV 50, RDSV 100
 Wide span extension T-piece cover WTARDV ...
