

AmAir®/CE

DISPOSABLE CARBON PLEATED FILTERS

- Economical, long-lasting solution to many odor problems from light to moderate
- Effective for a wide variety of odors found in:
 - Commercial Buildings
 - Shopping Centers
 - Hospitals
 - Restaurants
 - Health Clubs
 - Airports
 - Schools
 - Hotels/Motels
 - Manufacturing Operations
- Easy to install, disposable
- Directly interchangeable with standard air filters
- 1", 2", and 4" modles available
- UL Classified

Odor Control With Particulate Filtration

AmAir/CE carbon pleated filters are designed to provide odor and particulate control where light to moderate odor conditions exist. They are used for general air filtration in all types of cooling, heating, and ventilating systems, and are also excellent prefilters for higher efficiency filters.

Economical, Easy Odor Control

No expensive housings or ductwork modifications are necessary. There are no messy trays to refill or exchange. Simply install the filter as you would standard air filters, and dispose of them when they are no longer effective.

Pleated Filters

AmAir/CE carbon pleated filters are directly interchangeable with standard 1", 2", or 4" air filters. Simply replace your current prefilters with AmAir/CE filters and enjoy odor removal plus particulate filtration in a single product. No modifications to your current frames or latches are necessary.

Media Collects Particulate and Removes Odors

The media in AmAir/CE filters combines non-woven polyester fibers with 60% activity granular activated carbon. The polyester substrate filters particulate matter, while the activated carbon filters gaseous and odorous contaminants.

Totally Unitized Construction Offers Superior Strength

The pleated carbon media is contained in a frame constructed of high wet strength, moisture resistant beverage board. Two mating die cut boxes are bonded together, forming a double wall around the entire filter. Media is bonded to the inside of the frame on all four edges to prevent leakage and increase rigidity.

Each AmAir/CE filter is individually sealed in a poly bag to prevent adsorption of random odors prior to installation.

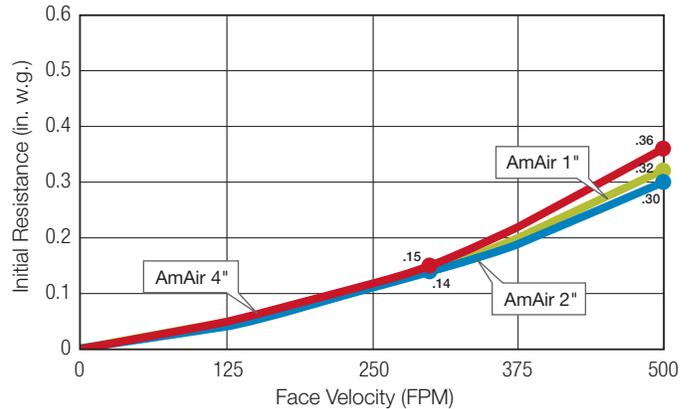

AmAir®/CE Filters

Product Information: Part Number, and Standard Sizes

Part Number	Nominal Sizes (Inches) W x H x D	Actual Sizes (Inches) W x H x D	Standard Package Qty. Per Box
411-301-200	10 x 20 x 1	9½ x 19½ x 7⁄8	12
411-301-314	12 x 20 x 1	11½ x 19½ x 7⁄8	12
411-301-319	12 x 24 x 1	11½ x 23½ x 7⁄8	12
411-301-371	14 x 20 x 1	13½ x 19½ x 7⁄8	12
411-301-375	14 x 25 x 1	13½ x 24½ x 7⁄8	12
411-301-400	15 x 20 x 1	14½ x 19½ x 7⁄8	12
411-301-500	16 x 20 x 1	15½ x 19½ x 7⁄8	12
411-301-600	16 x 25 x 1	15½ x 24½ x 7⁄8	12
411-301-635	18 x 24 x 1	17½ x 23½ x 7⁄8	12
411-301-700	20 x 20 x 1	19½ x 19½ x 7⁄8	12
411-301-782	20 x 24 x 1	19½ x 23½ x 7⁄8	12
411-301-800	20 x 25 x 1	19½ x 24½ x 7⁄8	12
411-301-863	24 x 24 x 1	23½ x 23½ x 7⁄8	12
411-301-870	25 x 25 x 1	24½ x 24½ x 7⁄8	12
411-302-200	10 x 20 x 2	9½ x 19½ x 1¾	12

411-304-863	24 x 24 x 4	23½ x 23½ x 3½	6

Filter Performance Data

Initial Resistance vs. Face Velocity

Filters are rated at 500 FPM filter face velocity. Recommended final resistance for all AmAir/CE filters is 1" w.g.
