ROD HOLDERS: FLUSH MOUNT (Polished)

15° & 30°, 1-1/2" I.D.

Color	Angle	P/N
Clear	15° (1)	RH1515C
Clear	30° (2)	RH3015C

- Designed with a 4" diameter flange, thus allowing the mounting holes to be moved further away from the tube. This allows thru bolt mounting, if desired.
- Soft liner material prevents scratching of custom anodized fishing rods.
- Use #14 or 1/4" size hardware for mounting.

Typical usage: Leaning post, boat gunnels, and rocket launchers.

90°, 1-1/2" I.D.

Color	Angle	P/N
Clear	90°	RH9015C

- Designed with a 4" diameter flange, thus allowing the mounting holes to be moved further away from the tube. This allows thru bolt mounting, if desired.
- Soft liner material prevents scratching of custom anodized fishing rods

Typical usage: Leaning post, and other areas where this configuration would be useful

Please check with your local T&C Metals Branch for updates, as specifications, materials availability, prices and terms of purchase may change without notice.

ROD HOLDERS: 10°, 1-1/2" I.D. (Polished or Brushed)

Color	Finish	P/N
Clear	(1) Brushed	RH10CB
Clear	Polished	RH10CP
Gold	Polished	RH10GP

- Designed with the economizer in mind.
- Rod holder is streamlined with #10 mounting hardware and a PVC liner.

(1) Top cap is circular brushed only on this rod holder.

Typical usage: Leaning posts and rocket launchers.

ROD HOLDERS: 10° AND 15° WELD-IN WITH 3" x 4" TOP CAP

Color	Finish	P/N	Angle
Clear	Brushed	RH10WCB	10°
Clear	Polished	RH10WCP	10°
Clear	Brushed	RH15WCB	15°

- Special application rod holder works well in low cost simple type leaning posts.
- Rod holder has a 3" x 4" shaped cap, uses a PVC liner and a SST roll pin that fits the rod butt perfectl .
- Available in brushed and polished brite dipped clear anodized finish
- See Section C for non-anodized rod holders.
