Safety Levers

Intuitive Ligature Resistant Trim

# LCSM Safety Levers

## LIGATURE RESISTANT TRIM

### Intuitive Aesthetic

- Operation and appearance of standard levers designed for ease of use and safe, comfortable egress

### Form Meet Function

- Designed to increase safety with mechanical clutch mechanism that, under pressure, releases lever into the downward or upward position limiting ligature opportunities\*
- ADA compliant
- Lightweight, solid brass construction designed with institutional strength and durability
- Easy installation

### Details + Options

- Solid stainless steel back plate, available in different sizes and options based on desired functionality
- For use with Accurate 9100SEC High Security or 9100 Grade 1, UL Listed 3-hour Mortise Locks in various functions. Can be custom manufactured to retrofit other manufacturers' locks.
- Finish: 626 Crescent/630 Back Plate standard.
- Optional anti-microbial coating (specify AM)
- Furnished with Torx® Security Screws

**\* USE WITH CAUTION: NOT RECOMMENDED FOR HIGH RISK AREAS. FOR THE SAFEST SOLUTION PLEASE SPECIFY THE CRESCENT HANDLE**
