DOORS

Ligature Resistant Swinging Door System

HEAVY-DUTY SWINGING DOOR FOR INCREASED SAFETY + PRIVACY IN BATHROOMS

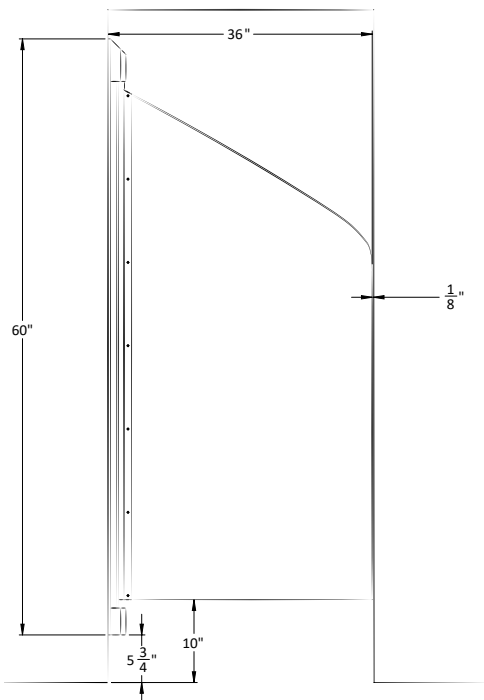

Holds Over 300lbs of Weight

Operates Without Springs

which removes possible ligature points and allows the door to swing in both directions.

Opens to 90° in Either Direction

stays open by design, and when moved to approximately 60° will self-close centered to the opening.

LR-SW Example Dimensions

+ $\frac{3}{8}$ " thick door can be coordinated to other thicknesses ($\frac{3}{4}$ " maximum)

+ system height may be customized upon request

Available in a variety of colored plastics that **maintain safety** while adding a *pop of color*.
