SC-LR-SDS Secure Cabinet Ligature Resistant Sliding Door System

FOR MEDICAL GAS ENCLOSURE

Secure Cabinet Ligature Resistant Sliding Door System for Medical Gases

This self-latching solution applies to full height or small “cabinet” doors and can be implemented as part of a headwall enclosure system to conceal medical gases, outlets and other equipment. It is available in a single or double leaf set up. the door(s) will lock in the open and closed positions.

SC-LR-SDS | Medical Glass Enclosure

DOOR CLOSED

Locking to conceal medical gases

DOORS OPEN

Open position to expose access to
medical gases

Secure Cabinet LR-SDS

FOR MEDICAL GASES

- Latched when closed or open.
- Available in a single or double door style.
- Concealed track system hangs a 1-3/4" thick door with minimal surface applied gap without any exposed anchor points or cavities.
- Concealed vertical rod bolt locks into track providing privacy with no accessible latch bolt or strike.
- Top door edge not accessible as a ligature point which eliminates barricade tactics and using door as a weapon.
- Rubber cladding dampens closure allowing quiet operation.

How to Specify

SC-LR-SDS.FINISH.DOOR THICKNESS.DOOR TYPE.DOOR SIZE.DOOR STYLE

FINISH

Standard
US26D/US32D.
