INDUSTRY LEADING ADA COMPLIANT LOCKSETS FOR ANY APPLICATION

SELF-LATCHING ADA SLIDING DOOR HARDWARE SET SL9100ADA

The self-latching sliding door lock is an easy-to-operate privacy solution for ADA compliant openings. The latch bolt is held back and released by pressing of a button or by sliding door closed against jamb.

SL9100ADA

BACKSETS: 2¹/₂" , 2³/₄" other backsets available as a special order.

DOOR THICKNESS: Available with 1" front for 1-3/8" thick doors or 1-3/4" thick doors. Sliding door applications only (due to the trim, this cannot be used on doors completely retracting into a pocket). Use on Barn door applications by adding a BARN DOOR strike.

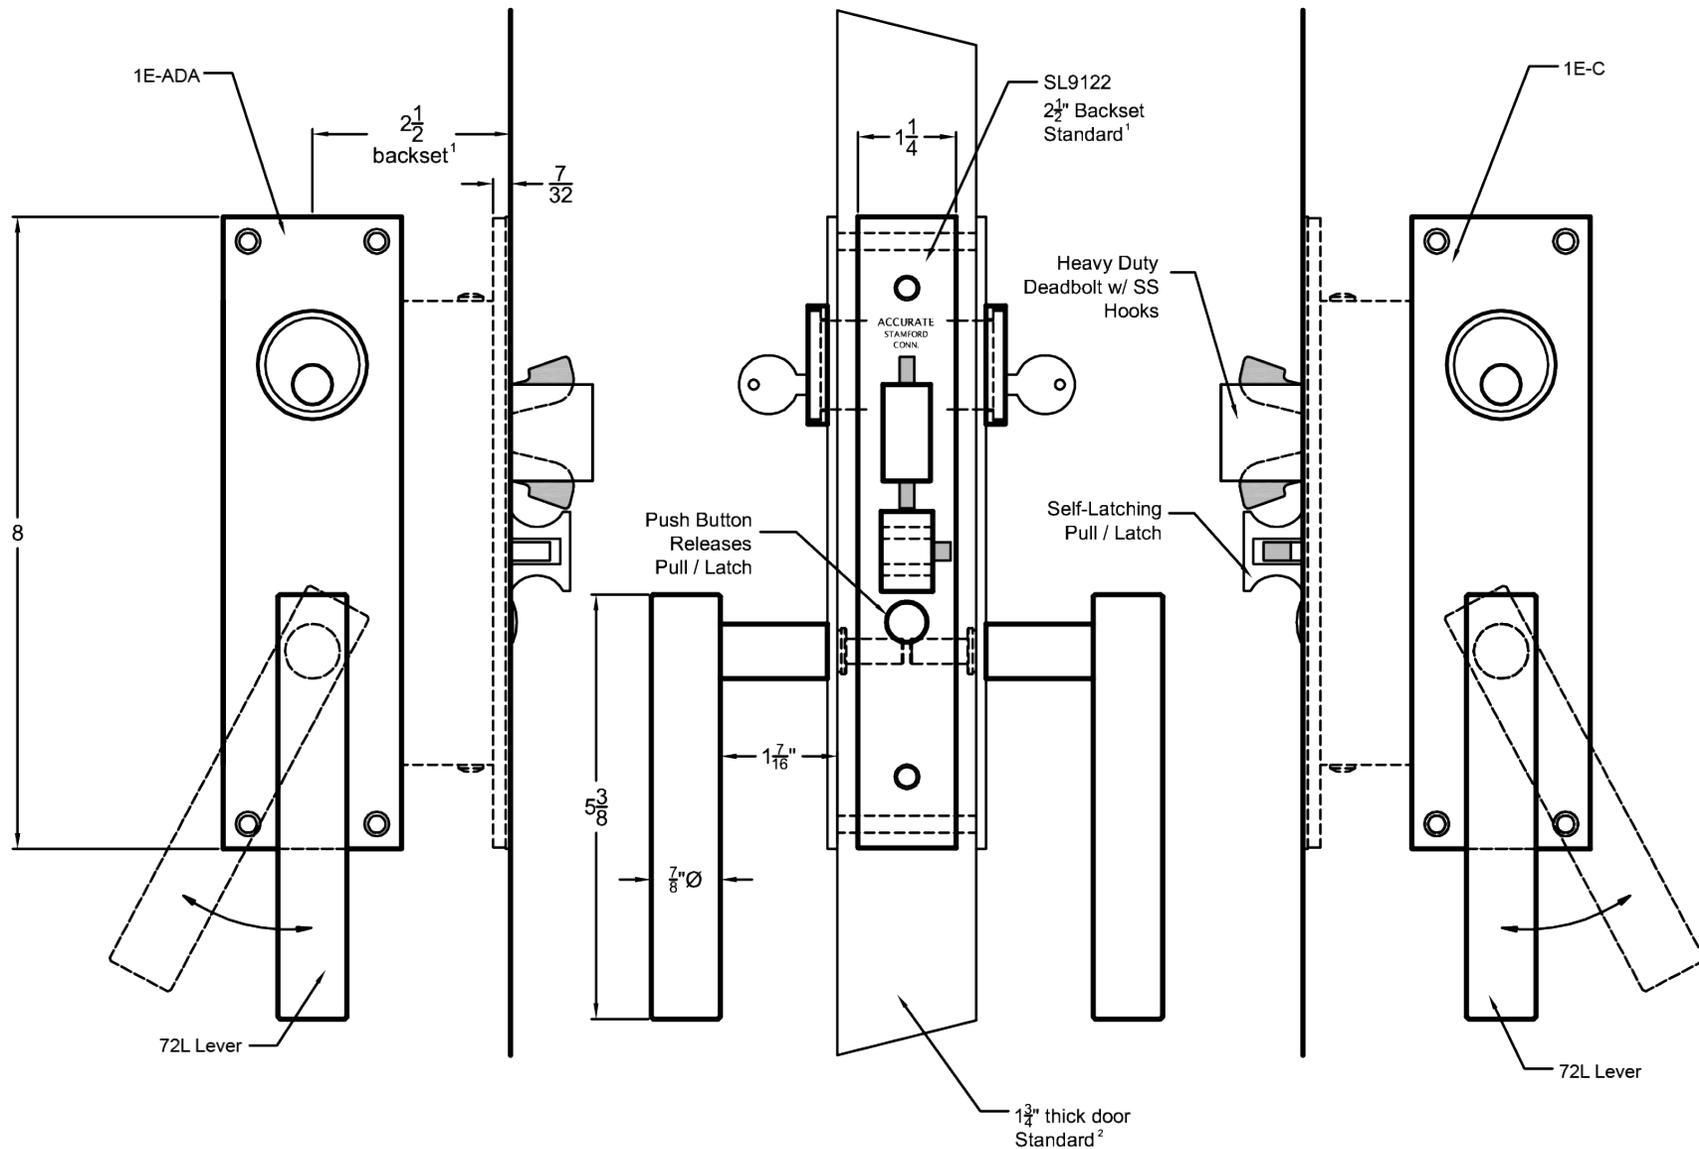

APPLICATION: Latch bolt functions like an edge pull when projected. Deadbolt available for locking/extra security (see function list). Single action egress allowing unlocking and sliding the door open in one operation.

TRIM: ADA Sets are furnished standard with 72L/1E, for other trim options reference [ACCURATE TRIM](#). Compatible with other manufacturers' sectional levers that can be installed vertically.
