SL9100PDL Self-Latching Pocket Door Hardware Sets

INDUSTRY LEADING POCKET DOOR SOLUTIONS

SELF-LATCHING POCKET DOOR HARDWARE SET

SL9100PDL

The self-latching pocket door lock is an easy-to-operate privacy solution for pocket doors. The latch bolt is held back and released by pressing of a button or by sliding door closed against jamb. The door self latches whether latch is projected or retracted. When door hits the frame, the latch projects and latches.

SL9100PDL

BACKSETS: 2¹/₂" , 2³/₄" other backsets available as a special order.

DOOR THICKNESS: Available with 1" front for 1-3/8" thick doors or 1-3/4" thick doors. Designed for pocket doors.

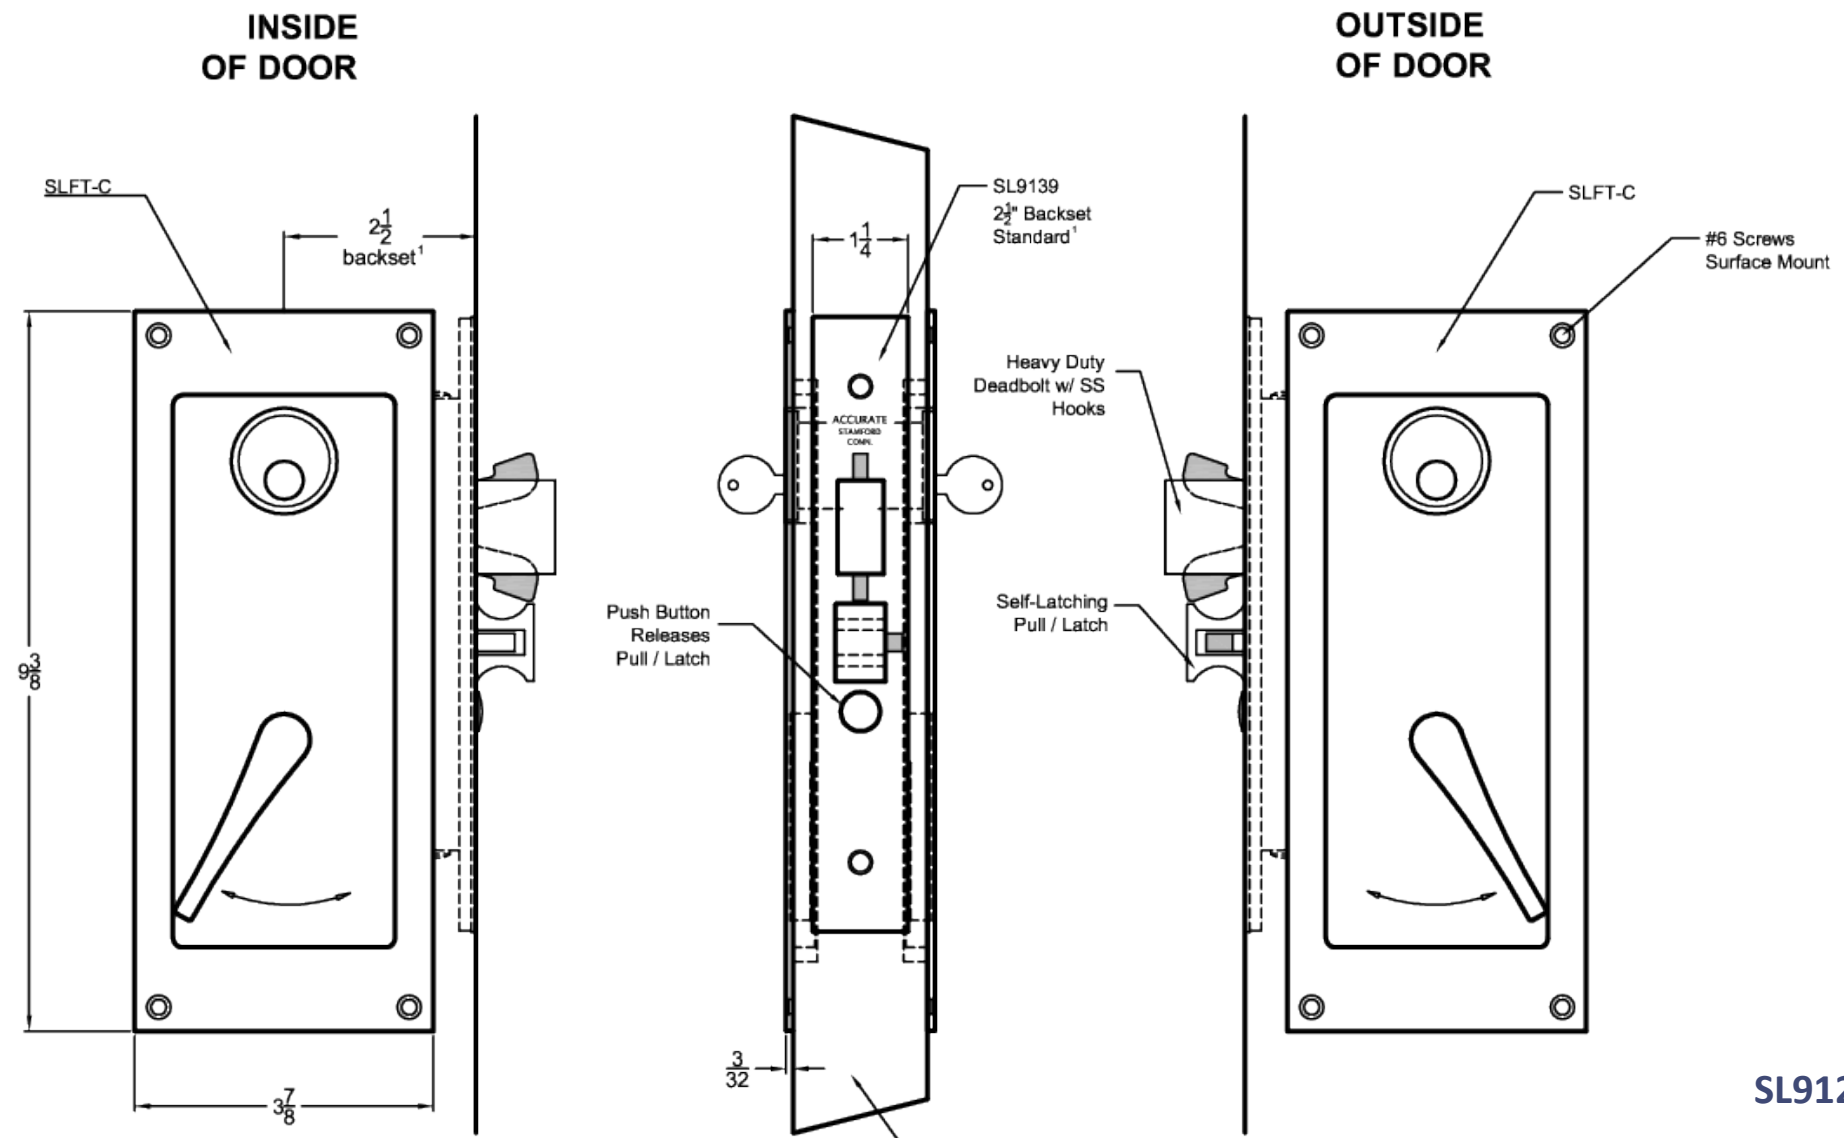

APPLICATION: Latch bolt functions like an edge pull when projected. Deadbolt available for locking/extra security (see function list). Single action egress allowing unlocking and sliding the door open in one operation.

TRIM: Supplied with Accurate's SLFT Flush Pulls.
