

Malattie infettive e agenti patogeni soggetti all'obbligo di dichiarazione

Quadro sinottico 2024

<p>Antrace <i>Bacillus anthracis</i></p> 	<p>Difterite <i>Corynebacterium diphtheriae</i> e altri corinebatteri che producono la tossina</p> 	<p>Febbre di Crimea-Congo Virus di Crimea-Congo</p> 	<p>Infezione da virus Zika Virus Zika</p> 	<p>Malattie invasive da meningococco <i>Neisseria meningitidis</i></p> 	<p>Salmonellosi <i>Salmonella</i> spp.</p> 
<p>Botulismo <i>Clostridium botulinum</i></p> 	<p>Enterobatteri produttori di carbapenemasi (CPE)</p> 	<p>Febbre di Lassa Virus di lassa</p> 	<p>Influenza stagionale Virus Influenza</p> 	<p>Malattie invasive da pneumococco <i>Streptococcus pneumoniae</i></p> 	<p>SARS SARS-CoV</p> 
<p>Brucellosi <i>Brucella</i> spp.</p> 	<p>Epatite A Virus dell'epatite A</p> 	<p>Febbre emorragica coreana Virus Hantaan</p> 	<p>Influenza, nuovo sottotipo Virus Influenza A HxNy (potenzialmente pandemico)</p> 	<p>MERS MERS-CoV</p> 	<p>Shigellosi <i>Shigella</i> spp.</p> 
<p>Campilobatteriosi <i>Campylobacter</i> spp.</p> 	<p>Epatite B Virus dell'epatite B</p> 	<p>Febbre gialla Virus della febbre gialla</p> 	<p>Legionellosi <i>Legionella</i> spp.</p> 	<p>MEVE Virus della meningoencefalite da zecche</p> 	<p>Sifilide <i>Treponema pallidum</i></p> 
<p>Chikungunya Virus chikungunya</p> 	<p>Epatite C Virus dell'epatite C</p> 	<p>Gonorrea <i>Neisseria gonorrhoeae</i></p> 	<p>Listeriosi <i>Listeria monocytogenes</i></p> 	<p>Morbillo Virus del morbillo</p> 	<p>Tetano <i>Clostridium tetani</i></p> 
<p>Clamidiosi <i>Chlamydia trachomatis</i></p> 	<p>Epatite E Virus dell'epatite E</p> 	<p>Febbre Q <i>Coxiella burnetii</i></p> 	<p>Malaria <i>Plasmodium</i> spp.</p> 	<p>Mpox Mpox-Virus</p> 	<p>Tifo addominale/ paratifo <i>Salmonella typhi</i> / paratyphi</p> 
<p>Colera <i>Vibrio cholerae</i></p> 	<p>Febbre del Nilo occidentale Virus del Nilo occidentale</p> 	<p>Gonorrea <i>Neisseria gonorrhoeae</i></p> 	<p>Malattia da virus Ebola Virus Ebola</p> 	<p>Peste <i>Yersinia pestis</i></p> 	<p>Trichinellosi <i>Trichinella spiralis</i></p> 
<p>COVID-19 SARS-CoV-2</p> 	<p>Febbre dengue Virus della dengue</p> 	<p>Infezione da EHEC EHEC, STEC, VTEC</p> 	<p>Malattia di Creutzfeldt-Jakob Prioni</p> 	<p>Poliomielite Virus della poliomielite</p> 	<p>Tuberculosis Complesso <i>Mycobacterium tuberculosis</i></p> 
		<p>Infezione HIV/ Aids Virus della immunodeficienza umana</p> 	<p>Malattia di Marburgo Virus di Marburgo</p> 	<p>Rabbia Virus della rabbia</p> 	<p>Tularemia <i>Francisella tularensis</i></p> 
		<p>Malattie invasive da Haemophilus influenzae</p> 	<p>Malattie invasive da Haemophilus influenzae</p> 	<p>Rosolia Virus della rosolia</p> 	<p>Vaiolo Virus della vaiolo</p>
