

How to Accept and Reject Slippage on OREX platform (Available on OREX Desktop Version only, not available on OREX Mobile Platform)

Step 1:

→ Choose the currency pair you wish to trade by clicking “Add Instrument”

The screenshot displays the OREX trading platform interface. At the top, there are navigation tabs for 'Trading', 'News', and 'Accounts'. The main area shows a grid of currency pairs with their bid and ask prices. The 'Add Instrument' button is highlighted with a red box. Below the market data, there is a table titled '7 Opened Positions' showing details for various instruments.

To Accept Slippage

Click “Max Slippage” and set the number of pips you will be accepted. Once it is done, click “Submit Order”

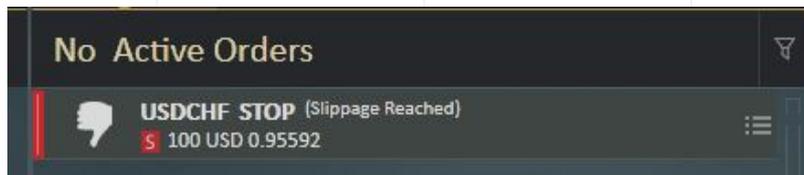

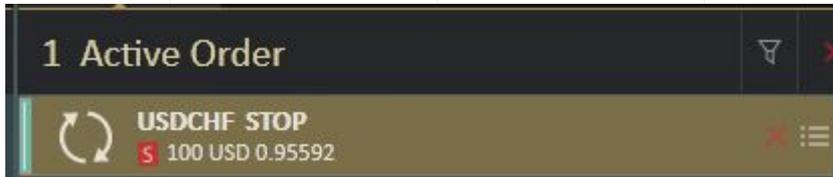

For example: Current rate is set as Buy USD/CAD at 1.30594. If “No more than 5.0 PIPS” is set, the acceptable executed price will be within 1.30544 (-5pips) to 1.30644(+5pips).

If the price hits within the range set, the order will be executed. If the price slipped out of the range set in “Max Slippage”, your order will be rejected and will not be executed.

The screenshot shows a 'PLACE ORDER' window for a USD CAD BUY order. The order is placed on behalf of [Client] Aaron... with account number 103220088100000. The order type is BUY USD. The current rate is 1.30594. The order amount is 100,000 USD. The 'Max Slippage' field is highlighted with a red box and set to 'No more than 5.0 PIPS'. Other fields include 'If Done' (S/L, T/P, OCO), 'Expiry' (GTC), 'Fill' (Partial Fill), and 'Trailing' (No). A 'Submit Order' button is at the bottom.

If your order is rejected due to the price slipped out of the “Max Slippage” set, you will get the message of “**Slippage Reached**” in Active Order window as below:

To Reject Slippage

If you DO NOT accept any slippage, set the “Max Slippage” of your order as “No more than 0.0 PIPS”. Once it is done, click “Submit Order”.

For Example: Your order set as SELL USD CHF at 0.95592 and the “Max Slippage” set as “No More than 0.0 pips”, and then the acceptable executed price will only be 0.95592.

Once the order is being hit at the exact price you requested, the order will be executed, otherwise, the order will be rejected and will not be executed.

The screenshot shows the 'PLACE ORDER' interface for a USD CHF trade. The order type is 'SELL' (highlighted in red), and it is a 'Stop' order. The order is placed on behalf of '[Client] Aaron...' with account number '103220088100000'. The order details are as follows:
