Got Questions About Your Medicare Coverage Options?

Watch this webinar now to get information about your options
by Humana (Paid Content). July 2016 | Comments: 0

If you or a loved one are becoming eligible for Medicare this year, you probably have many questions about Medicare eligibility, Medicare Advantage, and prescription drug plans. Getting answers to those questions can help you choose the plan that’s right for you.

Don’t miss your coverage decision deadline. Get the facts before you have to make a decision.

Take advantage of this opportunity to get informed by joining us in this Humana-hosted webinar, Medicare: A Guide to Choosing What’s Right for You.

Webinar Agenda
- Facts about Medicare
- Medicare's Medicare options
- Costs
- Important dates and more

5 Things You Might Not Know About Medicare
1. You may be eligible even if you’re still working.

   When you turn 65, you may be eligible for Medicare Parts A and B, even if you are still working.

2. There are four parts available — and each covers something different.

   Parts A, B, C, and D and each covers a variety of health expenses, such as hospital visits, doctor appointments, physical therapy, and prescriptions. Part A covers hospital care and Part B covers outpatient care and some medical supplies, therapy, and treatment. Together, they make up "traditional Medicare." Part C is Medicare Advantage plans offered by private companies and Part D is prescription drug coverage, also offered by private companies.

3. Your initial enrollment period (IEP) is based on your birthday.

   This period includes the three months before you turn 65, the month you turn 65, and the three months after.

4. Many different factors may affect which plan is best for you.

   It’s important to consider your health history and lifestyle before choosing your plan.
