Help Prevent an “If Only” Moment - Know about Important Cancer Screenings

Because nothing is more important than your health.

Be proactive about your health.
Cancer Screening Week is a public health initiative founded by Genentech, the American Cancer Society, Stand Up To Cancer, and Rally Health to increase awareness of the benefits of screening for certain cancers. It occurs in the first week of December each year. The goal is to drive action now and in the coming months ahead.

According to the American Cancer Society, regular screening can help find certain cancers early. Timing out what cancer screenings you need could make a world of difference.

Cancer Screening – An Important Action. A Big Impact
Certain common cancers may be caught early with screening and have guidelines to help people know their risk and get recommended tests.
