# COUPE CARREAU CIRCULAIRE

Circular tile cutter

## MasterSeries

A utiliser avec une perceuse portative. La forme de la lame et l'encoche de protection évitent toute altération de celle-ci.

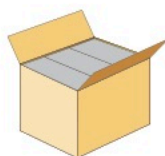

Très robuste. Mèche et lame en acier forgé et carbure de tungstène. Dispositif de protection contre les blessures. Capacité de 20 à 94 mm. Hauteur de coupe : 16 mm.

To be used with electric drill. The shape of blade and protection notch avoids the blade from being altered. Very sturdy. Nit and blade in forged steel and tungsten carbide. Injury protection devise. Capacity from 20 to 94 mm. Cutting height : 16 mm.
