Experience

Frontend Engineer (Mobile)

Software Business Solutions Consulting (SBSC)

Lagos, Nigeria 04/2023 - PRESENT

- I oversee the maintenance, bug resolution, and implementation of new features for a widely recognized financial platform with a significant presence across Africa.
- Developed a robust music concert/show ticketing application, utilizing React Native, to enhance user experience and accessibility.
- Implemented features ensuring a seamless user experience, covering ticket type differentiation, event browsing, ticket purchasing, and ticket management.
- Designed and incorporated ticket transfer functionality, enhancing user engagement and application usability.
- Contributed to the improvement of the application's overall performance, resulting in an optimized and user-friendly ticketing experience.

Frontend Engineer

ALAT By Wema

Lagos, Nigeria 07/2022 - 03/2023

- Developed and sustained a robust, high-volume payment gateway with a primary emphasis on security and compliance, showcasing a dedication to robust financial technology solutions.
- Integrated cutting-edge artificial intelligence for advanced fraud detection seamlessly into the payment gateway, demonstrating a commitment to leveraging innovative technologies.
- Spearheaded the implementation of enterprise applications across diverse payment platforms using a modern tech stack, including React, NextJS, Azure, and C#, showcasing proficiency in a range of technologies crucial to contemporary software development.
- Orchestrated a streamlined Continuous Integration/Deployment pipeline, actively participating in pull requests, conducting thorough code reviews, and implementing comprehensive unit, integration, and end-to-end testing methodologies, ensuring the delivery of top-tier, error-free software solutions.

Software Engineer

Decagon

Austin, Texas, USA 07/2020 - 06/2022

- Architected and developed a comprehensive employee management platform for a client, showcasing the ability to deliver tailored solutions that meet specific business needs.
- Crafted and maintained detailed API documentation for client-facing projects, ensuring clear communication and ease of integration for end-users, highlighting a commitment to transparency and collaboration.
- Demonstrated leadership by mentoring junior developers, providing guidance on technical challenges, and fostering a collaborative and supportive team environment, showcasing strong interpersonal and leadership skills.

Software Engineer, Freelancer

Fiverr

Lagos, Nigeria 02/2019 - 06/2020

- Collaborated with a global network of freelance developers to construct scalable applications, overseeing the end-to-end management of software development, including ideation, design, and research.

Software Engineer, Intern

Fokas

Lagos, Nigeria 04/2018 - 02/2019

- Collaborated with the primary developer in the reconstruction of the company's website, employing HTML, CSS, JavaScript, and JQuery to enhance its overall functionality and design.

Education

Bachelor of Science

Federal University of Agriculture

Abeokuta, Ogun, Nigeria 01/2014 - 04/2018

- Major in Banking and Finance
