CHS21

CARIBBEAN HEALTH SUMMIT 2021

Welcome

to The Caribbean Health Summit (CHS21). This summit is aimed at bringing local Caribbean and international minds to share their special knowledge on the Covid pandemic.

In March 2020, the WHO declared a pandemic that changed the lives of 7 billion people worldwide. Not just lives have been lost, livelihoods have been compromised and countries all across the world are in an unprecedented economic crisis.

Objectives

This summit aims to bring together medical professionals, scientists, human rights activists, lawyers and journalists from around the world to raise awareness about the ripple effects we are seeing as a result of the pandemic.

With censorship being widespread, we endeavour to bring the latest, credible information to the public. The World Council for Health endorses that “good health is everyone’s right. We work to ensure it by advocating on your behalf and bringing the best of global health and science research to you.”

The legal minds gathered will highlight issues that are jeopardising basic human rights and offer possible solutions. We must remind ourselves that no moral value is greater than humanity.

There is a better way... Let's find it ... together

For the latest updates from around the globe, legal and medical, expert panel discussions and a chance to interact with world leaders in their fields ... *Register Now* <https://form.jotform.com/Mmack007/CHS21SUCCESS>
