

CALL OF GEDOLEI HaRABBANIM OF ISRAEL
SEVERE WARNING: FORBIDDEN TO TAKE ANY COVID VACCINE

We hereby declare that after thorough investigations, verifications and very reliable evidence from many doctors and specialists who have no fiscal and political implications etc. as well as doctors Yirei Hachem, whom the corona vaccines from all companies are produced using a method dangerous and new which carries real dangers, both for reproduction in men and women as well as future harm to children, and this makes part of the Torah's harsh prohibition against sterilization and inducing infertility, etc.

Also, vaccines represent a real danger to human life either immediately or after a certain time. In addition, there is evidence of genetic therapy changes made by vaccines, which is an element completely wrong forbidden to do, which directly causes physical harm to children, as well as changes in the inclinations of the soul, which is a spiritual danger particularly serious in matters of Kedusha and Tsniut. (Ramban Shemini 11: 3 and Aharei 17:11)

Therefore, we reveal our opinion to Am Yisrael:

- 1). The Corona vaccine should not be taken under any circumstances, even if they are trying to force - we must insist on resisting with all our might.
- 2). Over the past few months, it has been reported all over the world that thousands of murders have been committed in hospitals around the world, also officials of ultra-orthodox medicine were guilty of misguiding the population to go to hospitals. As a result, many physicians and medical consultants have lost their credibility with all that this entails. Of even there were several types of drugs against Corona that worked, proven worldwide as an efficient drug, and the establishment medical has specifically blocked and prohibited the use of these drugs.
- 3). Ultra-Orthodox Jews in particular face great hatred from nations and non-religious, as has been clearly shown to all, especially with regard to the multiplicity of births, we are like thorns in their eyes, lest we multiply. Therefore, they are very, very hateful and pernicious in matters of medicine and childbirth, especially as they oppose the principle of multiple births and their ambition is on the contrary to "Dilute the population" is their impure language.
- 4). It is prohibited to advertise and help vaccinators in any form of assistance, especially directors of establishments for boys and girls must not give them access to them nor to their collaborators. There is an interdiction of the Torah as well as many other interdictions.
And as everyone saw during the period of Corona how the authorities in Israel and their collaborators persecuted all that was holy sacred, and in particular little children's Torah Yeshivah study as well as the schools for girls.
And what fool will believe in those who seek our evil, our persecutors, and suspect them of being the ones who want to save us and our children?
- 5) All parents must be vigilant with all their might, towards schools so that they do not exploit the innocence of parents and influence them to vaccinate their children, so it is necessary to warn orally and in writing the directors of the institutions that you formally prohibit having your

boys and girls, young and old, vaccinated.

We call on the God-fearing public to act and pray to stop the disaster, and this is included in "Thou shalt not resist the blood of thy neighbor", May God save us from all harm and send us the Moshiach very soon Amen.

Translation of Rabbis statements below general statement/warning

*According to my humble opinion, the issue of vaccines against corona is not simple at all and there is place for many concerns. One should not get involved with something that has danger connected to it. I have come to sign to the above,

(S) Abraham Simcha A. Chanun; Grand Rabbi from Chassidei Yerushalayim. (Jerusalem)

* I have heard these things (see below) from trustworthy and expert sources. I have seen the data as well as the opinions of doctors and experts. It is clear that any RAV that will hear and see these things will rule against it and forbid one to vaccinate. Anyone that will not forbid it, it's only because he didn't see or hear the data!

(S) Abraham Cohen, Bet Din Tzedek, Edah Chareidit Sefardim

* The Rabbonim-Geonim that have researched this issue and also the Roshei Yeshiva in America that have verified the issue well, are trusted to me! In conclusion, as the well-known general halachic rule states "danger is more serious than Prohibition!" In particular this is true especially here, since there are serious concerns of an anti-religious aim.

(S) Tzvi Freedman, Gaon, Head of Badatz Masores

* See Yoreh De'ah, Siman 155.

From the basic principle of law, it is forbidden to be healed neither by [a doctor who is] an idol worshiper nor by [one who is] a heretic (atheist) because they are suspected of [having no compunctions to restrain themselves from] murder. The permission to use these doctors despite their lack of morals is due to the understanding that they will not [dare to] damage their professional reputations.

To our sorrow, that the king ship/government has turned upside down [away from belief in G-d] to [open] atheism throughout the world, especially, it is not a secret, but atheists and non-Jews from the worst of the nations - who publicize their atheism - their entire opinion and their expertise is to encourage a revolt against the Holy One, Blessed be He (May the Merciful One spare us [from their influence] in rules [that promote] abomination and destruction and more, and [therefore], they are suspected of everything!

We already see in the recent past, that they have taken advantage of the innocence of the public, and they have guided them against their best interests [with lockdowns which have destroyed much of the middle class] And they [the public] have regretted it greatly! This must be stopped while there is still time, so that they, the public, will not be crying out about the past which cannot be brought back!

(S) Yehoshua, son of the great Gaon, R' Avraham Attiah, zatzal, Rav of Giborei Chayil

*The Rabbonim-Gaonim [perhaps the Beis Din of Rav YB Wozner, et al], which sat in session, hearing testimonies from hundreds of witnesses including many doctors who are proponents of vaccines, in general, and researching afterwards those testimonies] that verified the grave seriousness of the subject are Trustworthy, and [as Chazal say] "it is a mitzvah to listen to the words of the wise" and to be careful in everything that they have warned about.

Also it is a mitzvah to warn others.

In conclusion as the well known general Halachic rule states "danger is more serious than the prohibition!" May Hashem Yisborach have compassion on us and save us!
