FNOTICE OF LIABILITY

May 18, 2021

This Notice of Liability has been SERVED to you personally.

You may be held personally liable for harm and death caused by LEGISLATION, which is designed to coerce widespread acceptance of EXPERIMENTAL VACCINATION OF CHILDREN. The Israeli People's Committee

Interim Conclusion Report

April 2021: From Uncontrollable Impulse to Criminal Spin?

“I was impressed frankly with the obsession of your prime minister, he called me thirty times, thirty times. He would call me at 3:00 o’clock in the morning and he would ask me what about the variants, what data we have, and I said, “Prime minister it’s three o’clock...”. He said, “No, no! don’t worry, tell me.” Or he would call me to ask about children, “I need to vaccinate the schools,” or to ask about pregnant women. So, he convinced me frankly that he will be on top of it.” (Pfizer CEO Dr. Albert Bourla, interview on Israeli TV, March 2021)

The Israeli People's Committee Report of Adverse Events Related to the Corona Vaccine, April 2021

“Never has a vaccine injured so many”

The Israeli People's Committee, an independent investigative group that comprises medical, legal, and epidemiological expertise, has released a summary report on the experience of mass experimental vaccinations in Israel, which uses the Pfizer mRNA vaccine.

The data collected by the group paint a grim picture:

- The overall mortality in the January-February vaccination period was higher in 2021 than in any other year within the preceding decade. In the age group of 20–29 years, mortality in this time period exceeded that of the previous year by 32%.
- 288 deaths overall, mostly within the first 10 days after vaccination, were reported to the group. This number is more than six times greater

than the 45 deaths officially admitted to by the Health ministry.

- The group gives the following estimates for the mortality among the vaccinated: overall, 1:5,000; age 20–49 years, 1:13,000; age 50–69 years, 1:6,000; age 70+ ...
