

WHY ARE YOU HERE?

January 5 & 6, 2021 • Washington D.C.

My fellow Americans, my name is Dr. Simone Gold, a board certified emergency physician and Stanford University educated attorney, a mom, and the founder of AFLDS, dedicated to delivering truth in the support of health and human rights. You may know AFLDS as highly credentialed, unbiased scientists and doctors providing accurate data during this time of massive medical deception. Our actions saved thousands of lives. But today I am not here to focus on the details of medicine or health policy. Instead I am here to ask you a deeply significant question; why are **you** here? What is it, exactly, that brought over a million people flooding into the nation's capitol at this precise moment?

Certainly, it is clear that the most fiercely contested presidential election in modern history has recently occurred **without** a transparent and trustworthy result; but I believe your purpose in making the trip from all over the country to this place here and now is much larger than any political race or elected official. I believe the reason you are here is the same reason I chose to be here; because we have all recognized a dangerous assault on the the rule of law; a flagrant dismissal of those wise restraints that keep men free.

We have reached the same, inevitable crisis as our Founding Fathers. Within every human being lies a tendency to oppress others. Our Constitution exists largely to protect the people from the government. It exists to control that which does not change: human nature.

We are not here because we are republicans or democrats. We are not here because we are from the left or the right. We are here because we are Americans, and we believe in the truth of human liberty. We are here because we deserve, and demand, honesty and transparency from our government. We are here because we know the difference between honesty and hysteria, between transparency and trickery, between truth and lies, and we are sick and tired of being lied to.

Our 4th President, James Madison explained that “there are more instances of the abridgment of the freedom of the people by gradual and silent encroachments of those in power, than by violent and sudden usurpations...It is proper to take alarm at the first experiment on our liberties...”

Citizens: the only thing necessary for evil to triumph is for good men to do nothing; **we must do something**. Citizens: I ask you again. Why are **you** here?

If you know the mask is a lie, you must not wear it. If you know your Governor is violating your rights, you must not comply. If you don't want to take an experimental biological agent, deceptively named a vaccine, you must not allow yourself to be coerced. If you are living in fear of a non-lethal virus, simply buy the same cheap, ordinary medicines used across the world.

When you know something to be false, you must reject it, period. When you know something to be true, you must stand up for it, and you must be willing to fight for it. I urge you to mark this day, this moment, as the united return of our nation to the eternal fight for freedom; a commitment to integrity; a resolve to seek the truth in all arenas, and to always act upon it.
