

collector tank for solar liquid

Part no. 77796

benefits

- compact collector tank for easy wall mounting
- with integrated drain valve

Application

Collects groundwater polluting solar liquid in the case of system overpressure.

Description

Collector tank for solar liquid with integrated drain valve. Volume 10 l. The collector tank for solar liquid is connected to the diaphragm safety valve MSS or to the safety group assembly PrimoSol® of the solar pump assembly via a pipe. In the case of system overpressure, it collects escaping solar liquid. A basic volume of 1 to 1.5 l of liquid is always contained in the collector tank to avoid overheating of the collector tank if solar liquid escapes suddenly from the solar thermal system.
