

**combined thermometer/pressure  
gauge THMK 52**

**Part no. 67635125**

**combined thermometer/pressure gauge THMK With capillary tube**

## benefits

- ideal for boilers and hot water storage tanks
- corrosion-resistant, highly impact-resistant plastic housing
- many customised versions available

## Application

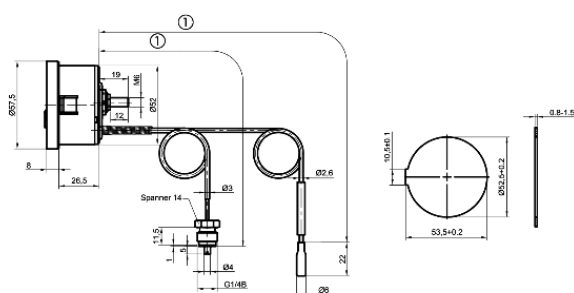

Heating, cooling and plumbing, e.g. boilers, buffer tanks.

## Options

- Dial with customer logo
- various capillary lengths
- special colours for housing, dial, pointer

## Technical Drawings

## Type THMK 52

**Dimensions (mm)**  
capillary length
