

Griffstück CAPBs® module

benefits

- universal for all CAPBs® sensor modules
- direct transmission of measurement data to the AFRISO apps and Blue-Line measuring instrument via Bluetooth®
- specific measurement program if the apps EuroSoft live and AFRISO TOOLBOX are used
- compliant documentation of the measurement results including diagrams in PDF format (app)
- individual configuration via multi-purpose key
- light-weight, ergonomic handle made of robust, high-quality plastic with three integrated magnet for hands-free operation
- multi-purpose key with customisable function assignment for ease of use and consistent operation of the CAPBs®, regardless of site
- multi-colour LED displays the status of the CAPBs® by means of different colours and flashing frequencies
- signalling device with audible signals for signalling concentrations or limit values
- Compatible with our proven BlueLine measuring instruments BLUELYZER ST, EUROLYZER STx, MULTILYZER STx, series S4600 ST and TMD 9 as well as your smartphone and tablet

Application

For mounting of one CAPBs® sensor module. The measured values can be visualised on a smartphone or a tablet via an AFRISO app immediately on site.

Description

Universal base handle for all CAPBs® sensor modules. Ergonomic handle with three magnets and battery compartment at the rear of the housing. Multi-colour LED and multi-purpose key on the front. With integrated device for audible signals and Bluetooth® module.

Technical Specifications

Dimensions

W x H x D: 45 x 140 x 39 mm

Supply voltage

2 x 1.5 V AAA batteries
2 x AAA NiMH battery (1.2 V/900 mAh)

Hours of operation

depending on CAPBs® sens sensor module used

Interface

Bluetooth®

Degree of protection

IP 40 (EN 60529) with plugged in CAPBs® sens sensor module

Versions

		Part no.
handle		M091000017
