

Pressure gauge for pump test set

benefits

- easy, fast function test of oil burner pumps
- suitable for standard pump test valves

Application

For checking the pressure and suction capacity at oil burner pumps.

Description

RF 50 PPS D101 without glycerine filling

Bourdon tube pressure gauge $\varnothing$ 50 mm plastic housing. Connection G $\frac{1}{8}$ for standard pump test valve.

RF 50 PPS D 601 with glycerine filling

Bourdon tube pressure gauge $\varnothing$ 50 mm with glycerine filling in robust plastic housing. Connection G $\frac{1}{8}$ for standard pump test valve.

Technical Specifications

Housing diameter

50 mm

Connection

G $\frac{1}{8}$ B bottom without sealing plug

Housing

Plastic, black

crimped bezel

RF 50 PPS D101

window

Plastic

accuracy class (EN 837-1/6)

1.6

Versions

		Range		Part no.
