

trip amplifier

Application

The MK 330 GS trip amplifier compares the measurement signal at the input with the values set by means of the coding switches (0–99 %).

Description

If the measurement signal exceeds or falls below the set value, the corresponding output relay responds according to the selected function (relay energises or de-energises).

Technical Specifications

Housing

DIN rail housing
W x H x D: 23 x 78 x 103 mm

Input resistance

current input: 50 Ohm
voltage input: 400 kOhm

Output

2 voltage-free changeover contacts
Contact rating: 250 V, 2 A, 100 VA
Function: 2 max., 2 min. or 1 max./min.

Versions

Part no.

trip amplifier
MK 330 GS
