

Magnetic piston pressure gauges MAG80Dif

Part no. 88005312

Magnetic piston pressure gauges for differential pressure - high overload protection

benefits

- compact and robust stainless steel measuring system
- max. static pressure PN 100, 250, 400
- Leak-proof due to mechanical separation of pressure chamber and display
- various connection types
- easy retrofitting of electrical contacts without intervention in the measuring system

Application

For differential pressure measurements at very high static pressures. For gaseous and liquid, non-adhesive media that are not highly viscous. Particularly suitable for monitoring filters, pumps, pipe systems and cooling circuits.
