

Pressure transducers HydroFox® DMU 08 T

Part no. 31559T0070

Pressure transducers HydroFox® DMU 08 T Level probe

benefits

- with integrated temperature measurement
- compact and sturdy stainless steel design
- integrated overvoltage protection
- special calibration for all standard pressure units possible

Application

For electronic, continuous level measurement, e.g. in wells, drilling holes, water, containers or in waste water systems. Suitable for groundwater, waste water (with optional FEP cable), diesel fuel and fuel oil.

Description

Pressure transducers HydroFox® DMU 08 convert physical pressure into an electrical signal proportional to the pressure. HydroFox® DMU 08 uses a piezo-resistive silicon measuring cell.
