

COPTHORNE®

Old world charm. New age technology.

Reminiscent of the brick pavers used in old European cities, towns and villages, Copthorne is a virtually indestructible paver that will not split, crack or fade. Crafted using a special forming process, each piece is uniquely altered, yet the dimensions are consistent for easy, efficient installation.

Only Unilock offers EnduraColor Plus Architectural Finishes. These products set a new standard for everlasting beauty thanks to proprietary blends of some of nature's highest performing minerals such as granite and quartz, combined with manufacturing technologies that are exclusive to Unilock.

The ultra-realistic textures of Copthorne are cast from hundreds of real bricks, but dimensions are consistent for efficient installation. This proprietary manufacturing process creates pavers with up to four times the strength of poured concrete.

Sold Separately/Blended on Site

Sold in full bundles only on a refundable skid (except specific areas of NY where half bundles are also available). Important: Textured surfaces require a buffer between the plate compactor and the paver surface to prevent scuffing. Take extra care when using Polymeric Sand with this product. Contact Unilock for information.
