WARMING TRENDS®

Superior Design. Superior Performance.
Superior Fire Feature Systems.

Standard Ring Burner with 180K BTU's

CFB180 CROSS**FIRE**® Brass Burner with
180k BTU's

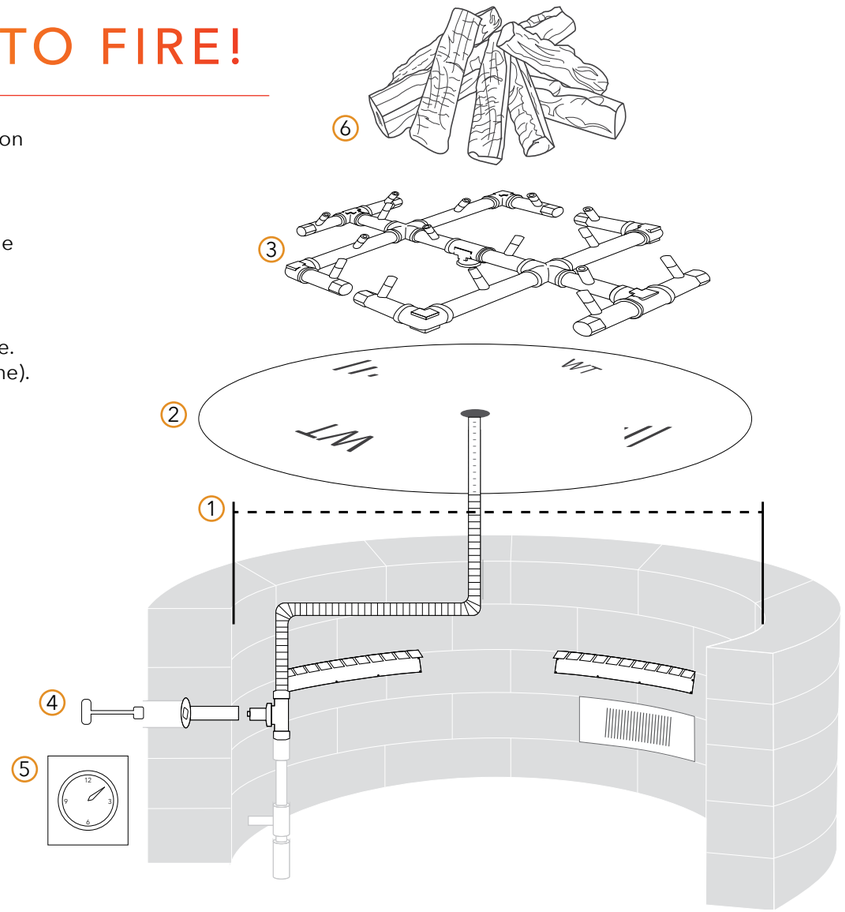
Don't settle for less.

The patented CROSS**FIRE**® Brass Burner is the most fuel efficient burner in the industry, producing beautiful, tall, bright flames all while consuming less gas.

100% Brass. Lifetime Warranty. Made in the United States.

SIX STEPS TO FIRE!

1. Measure the interior dimension of your fire pit.
2. Choose the corresponding Plate or Pan size. (Pans include a 2" welded sidewall).
3. Select Burner based on appropriate size and fuel type. (Natural Gas or Liquid Propane).
4. Choose the Ignition System: match lit or a fully automatic ignition system.
5. Add Optional Electronic Accesories: remote control options, dial timers, and emergency stop buttons.
6. Complete the fire pit with Media: steel or ceramic logs, lava rock, or fire glass.



PLEASE REMEMBER

- Plate should be sized slightly smaller than the measurement of the opening. This allows easier insertion and, if needed, removal for service.
- For outdoor use only. Installation and service must be performed by a qualified installer, service agency, or gas supplier. Installation and use must follow all local codes.
- Manufacturer recommends 3" of clearance from all interior sides of enclosure to nearest jet to avoid damage to enclosure.
- Modification of product will void any certification and warranty. (See page 69 for warranty information.)
- Follow all installation instructions and local codes. A copy of the Owner's Guide and Instruction Manual can be found on our website.

The Dealer Catalog is intended only for the possession and use of the Distribution Partners of Warming Trends and contains confidential information not meant to be disclosed to others, including competitors. Sharing, duplicating or distributing the Dealer Catalog is prohibited to anyone other than Dealers, Distributors or others authorized in writing by Warming Trends to receive the Dealer Catalog. TECH TIP

Paver Kits are becoming more popular and Warming Trends offers kits – including burner, plate, flex line and key valve kits - specifically designed to work with a variety of paver company block features.
See page57 for our Universal Paver Kit selection.

Warming Trends burners come standard as Match Lit Systems but fully automatic ignition systems are available and are recommended for 300K BTU systems and larger. Ignition systems can be found on page 61.

PLATES, PANS & COVERS

Cut from aluminum using state-of-the-art water jet technology, Warming Trends plates and pans are corrosion resistant and include drainage vents.

TECH TIP *Plate should be sized slightly smaller than the measurement of the opening. This allows easier insertion and, if needed, removal for service.*

READY-TO-FINISH KITS

Aluminum frames covered with concrete board, ready to be easily and quickly completed with your choice of media or veneer.

Simply place on site, connect to the gas supply, add stone or other veneer and your fire feature is complete.

Need a different size or shape? We're happy to help. Call our Flame Consultants at 877 556 5255

RECTANGULAR LINEAR READY-TO-FINISH KITS

TECH TIP

Ready-to-Finish Kits come with a Fire Pit Vent Kit (FPVK) but they do not come pre-installed as placement and installation depends on veneer. Vents are to be installed by contractor on site.

UNIVERSAL PAVER KITS

Universal Paver Kits are specifically designed to work with a variety of paver company block kits, including Techo-Bloc, Belgard, Keystone, and many others.

Please confirm interior dimensions of your pit and choose the corresponding Universal Paver Kit for your project.

Questions? We're happy to help. Call our Flame Consultants at 877 556 5255

UNIVERSAL PAVER KITS

Warming Trends Univseral Paver Kits include everything needed to complete or convert your paver fire pit.

Included in each kit:

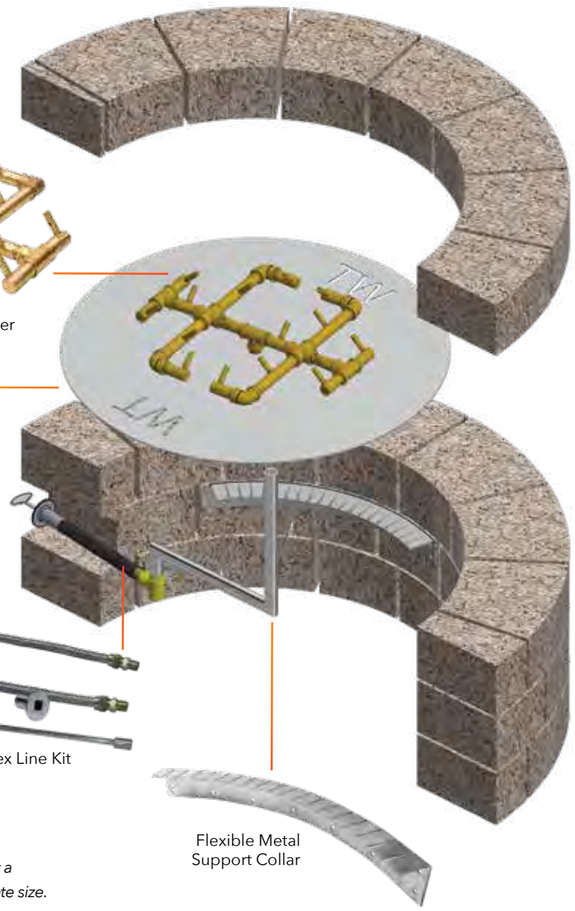
- CROSS**FIRE**® Brass Burner
- Aluminum Plate
- Flex Line Kit
- Key Valve Kit
- Flexible Metal Support Collars

Select the Warming Trends Universal Paver Kit that matches the interior dimensions of your fire pit.

Questions? Want to customize your kit? Give us a call at 877 556 5255

CROSSFIRE Brass Burner

Aluminum Plate



Whistle-Free Flex Line Kit

Flexible Metal Support Collar

KIT DOES NOT INCLUDE VENTS. (Manufacturer recommends 18 sq. inches of ventilation on opposing sides of the fire feature.)

KIT DOES NOT INCLUDE STONE/ ENCLOSURE.

TECH TIP *Collars provide support for the aluminum plate and allow a range of plate sizes to be used, adding up to 3" to the plate size.*

ACCESSORIES

Upgrade to electronic ignitions and turn your fire feature on at the flip of a switch (page 61.)

Add a Dial Timer with automatic shut off (page 64.)

Complete the look of your fire feature with glass, lava, or steel or ceramic log sets (page 66.)

IGNITIONS, PARTS, ACCESSORIES, & MEDIA

Light your fire feature with the simplicity of a match or choose a fully automatic ignition system.

Select the right accents to complement your feature's surroundings. Complete with a cover made to fit (page 47.)

IGNITION SYSTEMS

MATCH LIT

All CROSS**FIRE** Brass Burners come standard as a manual Match Lit System. Light a match and turn the key valve to ignite your fire feature burner.

PUSH BUTTON IGNITION

Upgrade to an electric Push Button Ignition. Turn the key valve to on position and push the button to ignite your burner.

Warranty

FULL LIFETIME WARRANTY FOR WARMING TRENDS® BURNERS

WARMING TRENDS warrants that each WARMING TRENDS® Crossfire® and other jetted-flame-brass-burners (each as "Burner") is free from defects in materials and workmanship and conforms to its specifications, which are available upon request.

The warranty period for a Burner is lifetime warranty beginning on the date of purchase ("Warranty Period"). This Warranty is transferable, but we reserve the right to require proof of ownership for any transferred burners including proof that the Burner was not acquired through improper means or unauthorized re-sellers. During the Warranty Period, WARMING TRENDS provides repair and exchange services for the Burners, without charge. If a Burner does not function as warranted during the Warranty Period and, after a reasonable number of attempts, WARMING TRENDS is unable to either 1) make it do so or 2) replace it with one that is at least functionally equivalent, you may return it to WARMING TRENDS and your money will be refunded.

The warranty stated above will not apply to the extent that there has been misuse or use contrary to specifications or the appropriate user or operating manual, installation defect, accident, modification, unsuitable physical or operating environment, operation in other than the specified operating environment (e.g., outdoor burners should only be used outdoors) improper maintenance by you, or failure caused by a product for which WARMING TRENDS is not responsible. With respect to Burners, the warranty is voided by removal or alteration of any identification labels or marks on any Burner or part.

THESE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

ITEMS NOT COVERED BY WARRANTY
Other than as expressly stated above, WARMING TRENDS does not warrant uninterrupted or error-free operation of any Burner or that WARMING TRENDS will correct all defects.
Warming Trends does not warranty any services related to our Burners, including installation, unless we provided those services to you. You may have warranty rights from the service provider, but we make no representations or warranties express or implied regarding any third party service provider.
This warranty also does not apply to any fire logs (including the FireStorm® Steel Log) or any of the electronics used in connection with our Burners, which may be covered by separate warranties with different terms.

YOUR RIGHTS UNDER STATE LAW
This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state. You may find this information from the Federal Trade Commission helpful in understanding your rights, but we recommend you speak to your attorney regarding your specific situation and the laws in your state or jurisdiction. https://www.consumer.ftc.gov/articles/0252-warranties

Ignition Systems Warranty

ALL BURNERS AND ELECTRONICS MUST BE COVERED WHEN NOT IN USE OR WARRANTY IS NULL AND VOID

Push Button Ignition Systems: There is no warranty offered on any push button ignition system.

Electronic Ignition Systems:
Residential Installations:

- 24VIK and 3VIK systems are fully warranted for one (1) year with a limited warranty for two (2) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, Warming Trends will repair or replace the system at no cost for the first year. In the event a system fails after the first year from date of purchase and within two years from date of purchase, Warming Trends will repair or replace the system for a cost of 50% of the current list price. This warranty does not cover labor costs.
- P24VIK systems purchased ON OR BEFORE April 15, 2018 are fully warranted for one (1) year with a limited warranty for two (2) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, Warming Trends will repair or replace the system at no cost for the first year. In the event a system fails after the first year and within two years of date of purchase, the cost for a replacement system is at a discount rate of 50% of the current listed price. This warranty does not cover labor costs.
- P24VIK Systems purchased AFTER April 15, 2018 are fully warranted for three (3) years from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, Warming Trends will repair or replace the system at no cost for the first three years. This warranty does not cover labor costs.

Commercial Installations:

- 24VIK and 3VIK systems are fully warranted for twelve months from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, Warming Trends will repair or replace the system at no cost. This warranty does not cover labor costs.
- P24VIK Systems are fully warranted for one (1) year from date of purchase. In the event a system must be replaced due to a defect/malfunction of the system, Warming Trends will repair or replace the system at no cost for 12 months from the date of purchase. This warranty does not cover labor costs.

Problems in the functioning of the systems due to gas plumbing or electrical installed by others are not covered by any warranty offered by Warming Trends.

No dealer, distributor, or other person has the authority to represent or warrant a Warming Trends™ product beyond the terms contained within this warranty, and Warming Trends assumes no liability for such warranty representations. Any questions concerning this warranty should be directed to the Warming Trends™ corporate office.

Return Policy of Warranty Product
Any Warming Trends™ product deemed by Warming Trends™ as defective and covered by the warranty may be returned to Warming Trends™ for assessment to determine if repair or replacement is necessary. In order to return a product, you must have a Return Merchandise Authorization number (RMA#). Please contact a Warming Trends™ representative at the corporate office to obtain an RMA#. All returned merchandise must have the RMA# clearly printed on the outside of the package. Return shipping costs are the purchaser's responsibility. Warming Trends™ is not responsible for product damaged or lost in transit. It is recommended that return items are shipped via a delivery service that can be tracked and/or insured to confirm receipt.

Minimum Advertised Pricing Policy Effective January 1, 2017

Warming Trends™ Minimum Advertised Pricing Policy (MAP) is designed to protect our brand while also protecting our long-term brand building partners who sell our products.
MAP is the net price advertised for our products after any and all discounts, rebates, gifts, promotions, etc.
The MAP policy applies to all advertisements of **Warming Trends**™ products in any and all media, including, but not limited to, flyers, posters, coupons, mailers, inserts, newspapers, magazines, catalogs, mail order catalogs, email newsletters, email solicitations, Internet or similar electronic media, television,radio, and public signage.
Warming Trends™ MAP policy is that Resellers will not advertise any product at prices below the published MSRP. This policy does not include advertising a higher price.
If a Reseller or a Distributor violates this Policy, **Warming Trends**™ reserves the right to discontinue sales to that Reseller.
Please note that MAP can be adjusted with or without notice at the discretion of **Warming Trends**™. It is the responsibility of the Reseller to keep informed of current MAP and policies related to MAP.
