NOTES

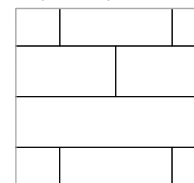

* For an authentic look, each color option is composed of a variety of darker & lighter tones. Natural ingredients such as granite are present within the recipe to allow for a range in tones, veining and textures from one stone to another.

See page 97 to 118 for more technical information.

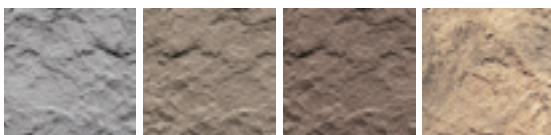

The dimensional tolerance for Stonedge wet cast retaining wall units is: $\pm 3/16"$ (5 mm) for height and $\pm 1/2"$ (13 mm) for length and width. During the installation, the level between adjacent wall units will vary (usually more than for a dry cast wall unit) in order to obtain a more realistic appearance of a natural stone wall.
