

Extr 500 sc

Organic fluid extract of fresh seaweeds

COMPOSITION

Organic Carbon (C)	2%
Mannitol	7,2%

Appearance
Liquid

Application
Foliar

Packaging
1 Lt / 5 - 25 Kg

DESCRIPTION

Extr 500 sc is a fluid extract of 100% fresh sea algae *Ascophyllum nodosum*, obtained by "cold" extraction processes to preserve noble substances contained in the product: vitamins, minerals, sugars, natural hormonal substances, cytokinins, auxins

Extr 500 sc represents an important source of energy for the metabolic system of plants. The high quality of the product increases productivity, vegetative development and the resistance to environmental stress.

DOSES AND METHOD OF USE

Tree crops	
Pre flowering	Post fruit set
1 - 1,5 Lt/ha	1,5 - 2 Lt/ha
Herbaceous Crops	
Post transplanting	Fruit development
1 - 1,5 Lt/ha	1 - 2 Lt/ha
Industrial crops	
Vegetative development	Production phase
1 - 1,5 Lt/ha	1 - 2 Lt/ha
