

Magnesio Complex

EC Fertilizer - Magnesium Nitrate solution

COMPOSITION

Nitric Nitrogen (N)	6%
Magnesium oxide (MgO) soluble in water	9%

 **Appearance**
Liquid

 **Application**
Foliar / Radical

 **Packaging**
5 - 25 - 1250 Kg

DESCRIPTION

Magnesio Complex is a product based on Magnesium complexed with Alpha hydroxy acids (AHAs), ideal for foliar applications to prevent deficiencies determined by this element.

The special formulation allows rapid assimilation of Magnesium ion through cell membranes.

The organic acids associated with Magnesio Complex are also easily and quickly assimilated by roots, making this product also usable in fertigation.

Magnesio Complex can be used on all crops (Stone and Pome fruits, Citrus, Grapevine, Horticultural and Ornamental crops) both by leaves and roots.

In any case, we suggest to carry out preventive treatments at the appearance of first symptoms of Magnesium deficiency to avoid decreases in production.

We suggest to use it during the coolest hours of the day. Do not mix it directly with alkaline reactions products or phosphates.

DOSES AND METHOD OF USE

Crops	Foliar	Radical
Tree crops	2 - 4 Kg/ha	20 - 80 Kg/ha
Industrial crops	2 - 4 Kg/ha	20 - 80 Kg/ha
Horticultural crops	2 - 4 Kg/ha	20 - 80 Kg/ha
Flower crops	2 - 4 Kg/ha	20 - 80 Kg/ha
Lawns and golf courses	2 - 4 Kg/ha	20 - 80 Kg/ha
