

# Zinco Complex

EC fertilizer - Zinc solution (sulphate)

## COMPOSITION

Zinc (Zn) soluble in water

11%

**Appearance**  
Liquid

**Application**  
Foliar / Radical

**Packaging**  
25 - 1400 Kg

## DESCRIPTION

Zinco Complex is a product based on Zinc complexed with carboxylic acids of medium molecular weight, ideal for foliar applications, to prevent deficiencies determined by this nutrient.

The special formulation allows rapid assimilation of Zinc ions through the cell membrane and total use of this nutrient.

Organic acids associated with Zinco Complex are also easily and quickly assimilated by roots, making also this product ideal to root treatments.

## EFFECTS

- Better balance between vegetative and reproductive phases;
- Increases the productivity of plants;
- Improves the qualitative characteristics of the productions (sugar content, colour, texture);
- Prevents Potassium deficiency increasing the synthesis of the chlorophyll;
- Increases the resistance to water and termic stresses;
- Increases resistance to parasitic attacks;
- Cellular permeability increases, improving the absorption capacity of nutritive elements.

## DOSES AND METHOD OF USE

| Crops                  | Foliar      | Radical       |
|------------------------|-------------|---------------|
| Tree crops             | 1 - 3 Kg/ha | 20 - 50 Kg/ha |
| Industrial crops       | 1 - 3 Kg/ha | 20 - 50 Kg/ha |
| Horticultural crops    | 1 - 3 Kg/ha | 20 - 50 Kg/ha |
| Flower crops           | 1 - 3 Kg/ha | 20 - 50 Kg/ha |
| Lawns and golf courses | 1 - 3 Kg/ha | 20 - 50 Kg/ha |
