

# Protein Combi

Fluid yeast extract containing brown algae

## COMPOSITION

Total nitrogen (N)	5%
Organic Nitrogen (N)	5%
Organic carbon (C) of biological origin	20%

 **Appearance**  
Liquid

 **Application**  
Foliar/Fertigation

 **Packaging**  
25 - 1250 Kg

## DESCRIPTION

Protein Combi is a totally water-soluble organic nitrogen fertilizer, with a high and balanced content of free amino acids, quickly absorbed by plants to produce proteins, enzymes and plant growth regulators, carbohydrates, etc.

Applied regularly, Protein Combi allows an uniform development, increases yields, fruit set, fruit size, organoleptic qualities and shelf life of fruits; on plants

debilitated by stress (frost, hail, weeding, root asphyxia) their vegetative recovery is favoured.

Thanks to wetting, tackifying, anti-evaporating and carrying properties, Protein Combi reduces dripping losses, so it allows a lower rate use of insecticides, fungicides and herbicides if mixed together.

Product signed up to Fertilizer Register for Organic farming: n° **0017171/16**

## DOSES AND METHOD OF USE

Crops	Foliar	Fertigation
Tree crops	300 - 400 g/hl	7 - 11 Kg/ha
Industrial crops	300 - 400 g/hl	7 - 11 Kg/ha
Horticultural crops	300 - 400 g/hl	7 - 11 Kg/ha
Floriculture	300 - 400 g/hl	7 - 11 Kg/ha
Lawn turf and golf courses	300 - 400 g/hl	7 - 11 Kg/ha
