DESCRIPTION

Protein Top is a totally water-soluble organic Nitrogen fertilizer, obtained by hydrolysis of organic substances of vegetable origin, with a high and balanced rate of free L-amino acids, quickly available and usable by plant to the synthesis of proteins, enzymes, plant growth regulators and sugars synthesis, etc.

Applied regularly, Protein Top allows a balanced vegetative development, increases yields, fruit set, fruit size, organoleptic qualities and shelf life of fruits; applied on plants debilitated by stress (frost, hail, weeding, root asphyxia) their vegetative recovery is favoured.

APPLICATION

Do not mix it with alkaline reaction products, oily insecticides, polysulfides, sulphur, copper and tin metal

based products (except on olive trees, where it can be associated to copper).
