

Protect-us™

INVADER MAX™

ANT & COCKROACH BAIT

Reg. No. L10743 Act/Wet No. 36 of/van 1947

PROTECTING YOU BOTH IN AND OUTDOORS

An easy-to-use granular bait controlling
ants and cockroaches

ACTIVE CONSTITUENT: 0.1 g/kg FIPRONIL

Net Contents : 200 g

CAUTION

PEST	SITUATION	REMARKS
Ants	Outdoor perimeter treatment around structures	Sprinkle evenly in a 30 to 60 cm band adjacent to the foundations of the building, along driveways, paths, gardens and around trees. For best results apply when ants are most active, usually late afternoon. Follow-up visits should be made to inspect bait placement. Reapply as necessary.
	Broadcast application	Apply by shaking uniformly over lawns, gardens and other non-crop areas.
	Ant mounds	Sprinkle around each mound (DO NOT use food utensils). For best results do not apply directly to the mound, nor disturb the ants or mound.
Ants and cockroaches	Indoor use	DO NOT use in areas accessible to children. Indoor application is limited to inaccessible areas such as cracks and crevices, wall voids and crawl spaces in commercial and residential areas. Apply by shaking into cracks or crevices (DO NOT use food utensils). Remove any loose or excess granules. Apply to crawl spaces inaccessible to children and pets.

DIRECTIONS FOR USE:

Use only as directed.

INVADER MAX Ant & Cockroach Bait is suitable for controlling ants and cockroaches in indoor and outdoor situations.

The granules contain a special blend of foods plus fipronil insecticide.

Worker ants carry the granules back to the nest. Expect to see fewer ants within one week. For indoor use insect bait stations may be used.

For outdoor broadcast applications use a hand held rotary spreader or similar device which will give uniform distribution.

For smaller areas sprinkle uniformly by hand covered with rubber gloves.

For indoor applications use a suitable dust or granule applicator.

- DO NOT apply to a wet ground surface or to areas that are washed or irrigated, or if rain is likely within 24 hours of application.
- DO NOT use with other insecticides or near where they have been applied.
- DO NOT mix with any other insecticide, fertilizer or product of any type.

WARNINGS

Handle with care.

Harmful when swallowed

A mild eye irritant.

Toxic to fish and aquatic invertebrates and harmful to other animals.

Store in closed original container in a dry, cool, well ventilated area out of direct sunlight and away from food and feedstuffs.

Keep out of reach of children, uninformed persons and animals.

PRECAUTIONS

Avoid contact with eyes and skin.

Wear rubber gloves when dispersed by hand.

Wash hands after use.

Apply bait where it is inaccessible to children and animals.

Application equipment should be thoroughly cleaned before use and, after use, unused granules should be returned to the original labelled container. Close container.

Destroy empty container by perforation and flattening and never use for any other purpose. Dispose in a responsible manner and according to local legislation.

DO NOT use empty container for any other purpose.

Empty containers and granules should not be burnt.

Prevent contamination of food, feeds, eating utensils and drinking water.

DO NOT apply to surfaces where food is handled or stored.

DO NOT place baits in locations which are accessible to domestic animals, livestock or birds.

DO NOT contaminate ponds, streams, waterways or drains with granules, or used containers.

The product may be applied only within the areas specified on the label. DO NOT apply in conservation areas such as nature reserves.
