HASSLE FREE SPRINKLER MAINTENANCE

“**SPRINKLER BUDDY™** IS A POP-UP
SPRINKLER PROTECTION HOUSING
THAT ALSO SERVES AS HASSLE-FREE
MAINTENANCE ACCESS”

ABOUT OUR PRODUCT.

SPRINKLER BUDDY™ was designed and developed by our company's Managing Director. Irrigation Innovation identified the market potential of a robust pop-up sprinkler protection housing that not only protects your sprinkler from various external forces, but that gives the user easy access to allow for non labour intensive sprinkler replacement or maintenance. **SPRINKLER BUDDY™** is manufactured in South-Africa and our production capabilities are 40,000 units per month.

SPRINKLER BUDDY™ is a plastic injection molded product, manufactured from Polypropylene (PP) and Acrylonitrile Styrene Acrylate (ASA) respectively for the Sprinkler Housing and Housing Cap. The Material selection attributes to the design features to provide strength and durability.

PATENT PROTECTED DESIGN AND CONCEPT

PRODUCT BENEFITS

- ✓ EASY ACCESS TO YOUR POP-UP SPRINKLER
- ✓ CLEAN ENVIRONMENT FOR OPTIMAL SPRINKLER FUNCTION
- ✓ STYLISH DESIGN
- ✓ UV RESISTANT HOUSING CAP FOR DURABILITY
